Monday-Friday 8 AM-6 PM EST

## Access current, evidence-based scientific information related to the GSK portfolio of products

- Search the Medical Information database using keywords.
- Explore therapeutic areas, guidelines, and clinical study data using a decision-tree tool.
- Ask any scientific or medical question about GSK's products and receive a specific response from GSK's Medical Information representatives.
- Obtain information about ongoing clinical trials.
- Connect with a local Medical Science Liaison.
- Search for product stability data using the vaccine thermostability calculator tool.
- Learn about upcoming webinars and medical congresses.
- View scientific videos across all therapeutic areas.
- Gain insight into late- and early-stage pipeline assets.
- Access the Prescribing Information for GSK-marketed products.
- Report an adverse event.

*This service is for healthcare professionals practicing in the United States only. The site is prepared by GSK Medical Information and not intended for promotional purposes or to provide medical recommendations.*
