## Why Chenbro

# Engagement

### Global Business Distribution

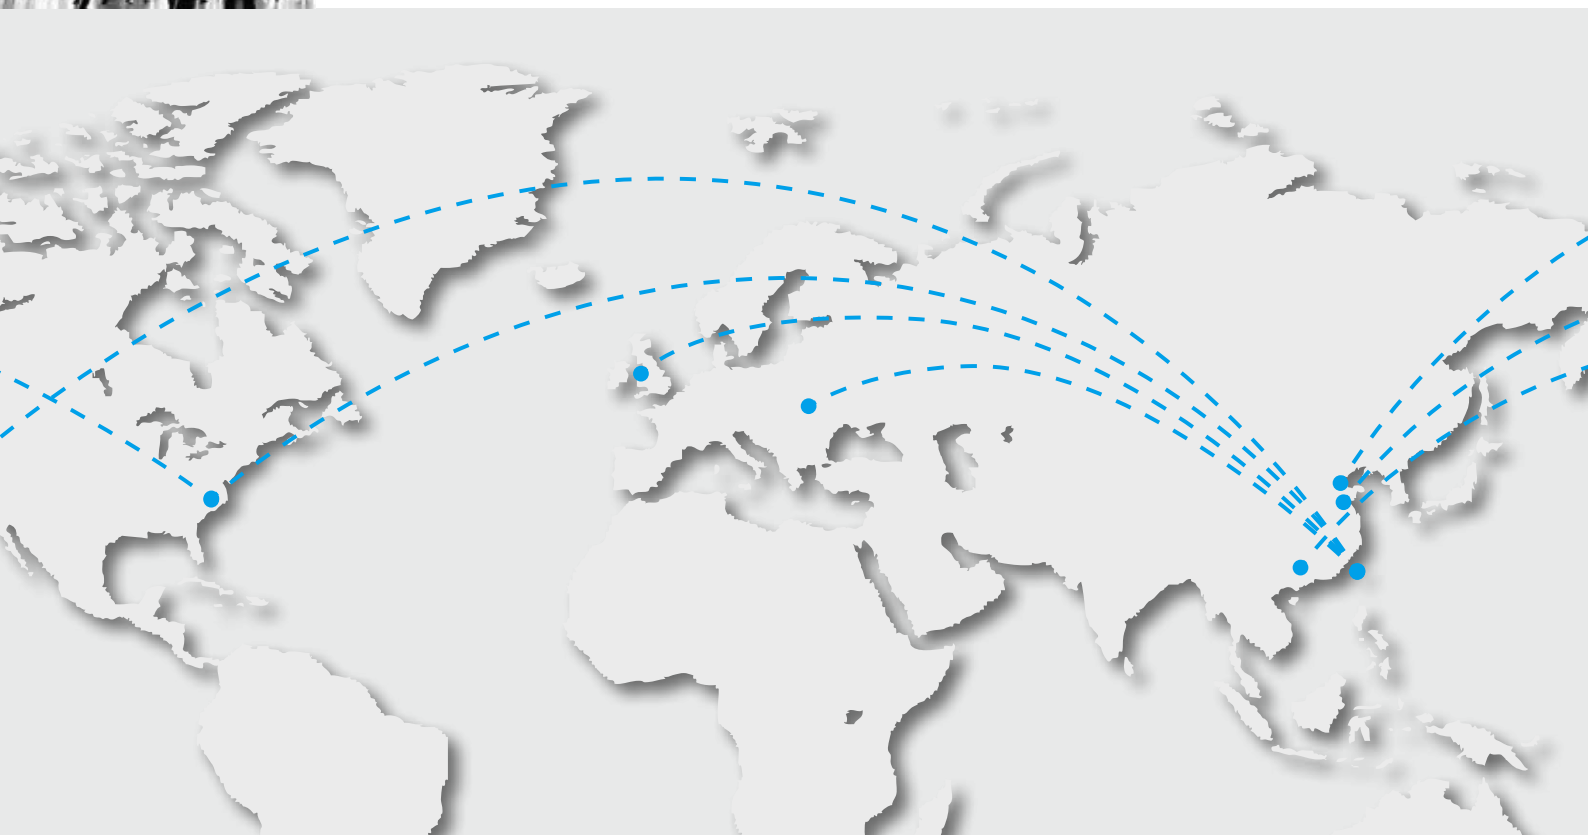

Established in 1983, Chenbro is headquartered in Taipei, Taiwan with two manufacturing sites in China. Our overseas offices and logistic centers have spread to North America, Germany and China to provide real-time service since 1992.

## Seamless Partnership

Strong partnership experience with the first-tier brands accelerates Chenbro within OEM/ODM scope and builds long-term relationship with global well-known rackmount, server and PC ecosystem partners. Our cutting-edge technology and customized designs in trusted systems built with alliance hardware components can provide fully-fledged and flexible solutions.

## Accelerating Your Business

The faster your products are time to market, the faster it generates profits for you. Thousands of Chenbro's molding equipment and various modules provide flexibility in production to achieve "mass customization", and support clients to take the dynamic markets in their stride.

## Why Chenbro

# Innovation

### Digital Transformation

Verified by well-known global brands with their continuous trials, we refine our products to deliver the service with speed. With such abilities, we are fully capable of assisting Digital Transformation for enterprises.

## Industry-leading Design

Chenbro launched the world's first tower PC with removable motherboard tray. As a trailblazer in designing and manufacturing of own-brand rackmount system, tower server and PC chassis for over 35 years, we indeed file over 400 patents and world recognized design awards.

## In-house Laboratories

Our in-house laboratories assure the quality of product design and manufacturing process. With these cautious examinations, clients are carefree with our products to apply themselves to their business targets. Moreover, through our constant laboratory investment, customers can leverage our resources instead of overlapping their funding.

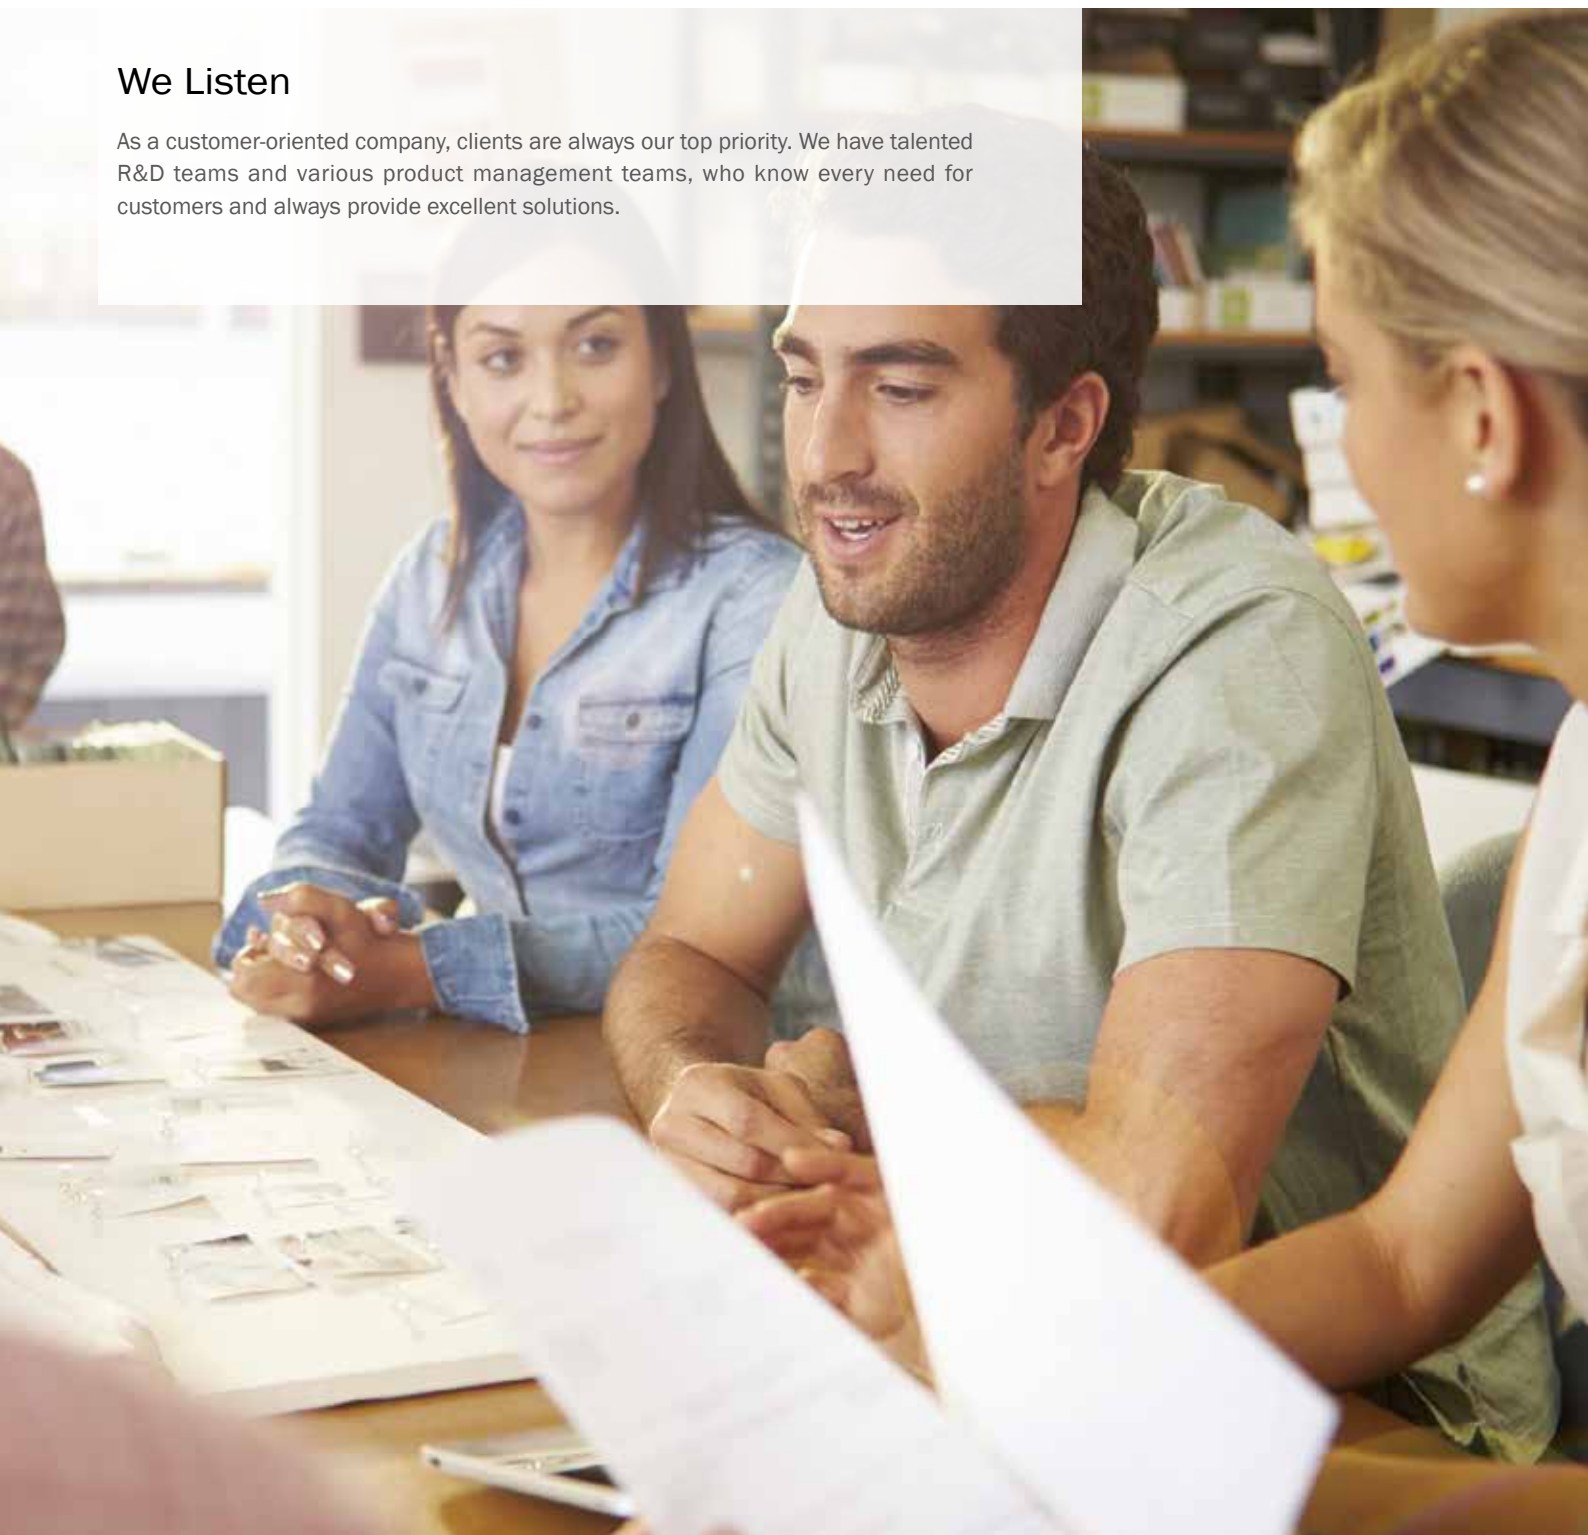

## Why Chenbro

# Commitment

### We Listen

As a customer-oriented company, clients are always our top priority. We have talented R&D teams and various product management teams, who know every need for customers and always provide excellent solutions.

## We Do

As a company to pursue perfection of the technologies, we are the leading enclosure solution provider now. We were the winner of Red Dot Design Award 2018. But the best is yet to come, we still work for excellence in the fourth decade.

## We Care

Chenbro is certified by ISO9001 and ISO14001; we are committed to fulfill our social responsibility with the implementation of the EICC Code of Conduct.

Additionally, our products follow the Conflict-free Smelter program to verify the responsible sourcing of metals. We acknowledge our duty for environmental protection by packed our products with recyclable materials with RoHS compliant.
