

Big Data & AI

The Big Data & AI portfolio at Carahsoft includes industry-leading and emerging technology solutions to enable government agencies to derive more value from the increasingly massive and complex amounts of data they collect, store and analyze.

As data, and the sources from which it comes, continues to grow at exponential rates, these solutions address the government's most pressing Big Data & AI challenges from analytics, virtualization, storage and retrieval to data consolidation, management and compliance.

Turn your Big Data & AI into operational intelligence that improves efficiency, supports your mission and reduces costs with our comprehensive portfolio of products and services that support your needs in the areas of:

- **High Performance Computing (HPC):**
- **Artificial Intelligence/Machine Learning (AI/ML)**

HIGH PERFORMANCE COMPUTING (HPC)	 <p>Scalable, High-Performance Deep Learning</p>	 <p>High Performance Computing</p>	 <p>Digital Enterprise Platform for AI & IoT</p>	 <p>Compact High Performance Computing</p>
	 <p>Value from the Data & Information Collected & Generated</p>	 <p>Cloud Based Big Data Processing Powered by Apache Spark</p>	 <p>Making AI Simpler with Pre-Designed, Pre-Validated Solutions</p>	 <p>Pre-trained Models & a Service to Generate Your Own Tailored Models</p>
	 <p>Solutions Helping Customers Deploy, Optimize & Scale AI</p>	 <p>Connecting HPC & AI Super Computers</p>	 <p>Automate Policy, Classification, & Guard Info from Creation to Disposition</p>	 <p>Technology You Can Count On</p>
	 <p>Powering AI with GPU Acceleration</p>	 <p>Run Better with SAP</p>		
AI / ML	 <p>Scalable, High-Performance Deep Learning</p>	 <p>Self-Service Data Analytics</p>	 <p>Improve Outcomes by Turning Big Data into Actionable Insights with AI</p>	 <p>Digital Enterprise Platform for AI & IoT</p>

Big Data & AI

ARTIFICIAL INTELLIGENCE/MACHINE LEARNING (AI/ML)

CLOUDERA

Exposing Threats with Predictive Analytics & Machine Learning

databricks

Continuously Scale & Manage your AI Apps Apache Spark
