

AccuVax® — vaccine management at your fingertips

Dispense

Load

Inventory

Protect Vaccine Integrity with Guaranteed Temperature Management

- Market-leading, all-in-one integrated fridge and freezer that guarantees vaccine inventory
- Door-less design ensures temperature stability, even during heavy use
- 7 integrated Digital Data Loggers provide ideal temperature control and redundancy
- Integrated drawer allows for inventory control of refrigerated packages and odd sized medications

Eliminate Waste & Loss

- Avoid costly missed billings with automatic documentation of every transaction
- No excursion loss due to guaranteed temperature control
- Always dispense the nearest to expire vaccine
- Stop disappearances with biometrically secured access

Free Staff Time for Top of License Care

- Access dose-level inventory with your fingertip, never count individual doses again
- Automates CDC and VFC compliance, including VFC temperature logs and inventory stock reports
- Rotates inventory and dispenses nearest to expiry first, no time spent on manual stock rotation
- Manages separation of VFC and private inventory

Provide Inventory & Reporting Accurate to the Dose

- ▶ Documents a storage and handling audit trail for each dose
- ▶ Alerting suite notifies on low or expiring vaccine inventory to avoid stockouts
- ▶ Automatically tracks multidose pierce dates and dose usage
- ▶ Always accurate inventory can allow for inventory reduction and free up capital

Maximize Patient Safety

- ▶ Safeguards vaccine viability with ideal temperature control
- ▶ Intuitive graphical user interface and available EHR integration reduces selection errors
- ▶ Easy workflows and single tray storage for most two-component vaccines avoids confusion and errors
- ▶ Locks down expired and recalled vaccines, eliminates potential administration errors

Technical Specifications:

- Capacity: 600 refrigerated locations (and up to 300 additional doses in drawer), 119 frozen locations
- Vaccine Storage: All vaccine presentations accepted (vial, syringe, oral, nasal, multi-dose)
- Drawer: 0.36 ft³ refrigerated drawer space, supports any cold-storage medication, includes drawn syringe tray
- Size: 30.0"W x 28.5"D x 65.0"H
- Digital Data Loggers: 7 integrated, NIST calibrated; includes 2 buffered probes (1 fridge, 1 freezer)
- Battery back-up: Built-in, 9+ hours of operation
- Notifications: Proactive alerting suite with email and text, includes temperature, power, and inventory alerts
- Power: Standard wall outlet (120V)
- Network: Ethernet & WiFi with backup cellular (3G/LTE) communication
- Security: SOC 2 Type 2 compliant and biometrically controlled access protects PHI
- Support: 24/7 customer service that includes remote monitoring
- Warranty: Maintenance and repair included
