

# PEDIATRIC SOLUTIONS

## Lighted Ear Curette™ with Magnification

Bionix® Lighted Ear Curettes™ combine illumination and magnification to help healthcare providers take less time to see and safely remove cerumen from the ear canal.

## Lighted Forceps

Bionix® Lighted Forceps combine illumination and magnification to help healthcare providers take less time to see and safely remove ear canal and nasal passage obstructions.

## Lighted Suction

Bionix® Lighted Suction combines illumination and magnification with the efficiency of a suction device, to help healthcare providers take less time to see and safely remove ear canal and nasal passage obstructions.

## Safe Ear Currettes™

Bionix® Safe Ear Currettes™ allow healthcare providers to safely and gently remove cerumen with styles to match different types of wax and personal preference.

## OtoClear® Ear Irrigation Tips & Delivery Devices

Bionix® OtoClear® Ear Irrigation allows healthcare professionals to utilize a soft, flared, 3 streamered tip that eliminates the mess, improves patient safety, and is compatible with a variety of delivery devices to meet the personal preference of every facility.

## ShotBlocker®

Bionix® ShotBlocker helps healthcare providers minimize needle stick pain associated with injection administration at half the cost of topical freezing sprays and anesthetic creams.

Ask me how foreign body removal procedures can generate additional revenue for your facility.

View Page 2 to see which products are available for purchase on the Vizient or Intalere GPO contracts.
