

## OP RCM™

### Revive your revenue stream

Getting paid for all of your work, not just parts of it, makes a substantial difference to your practice's bottom line. Partnering with OP RCM is one step you can take to keep your focus on patient care, not payer collections.

OP understands the billing challenges pediatricians face, such as: complex revenue cycle, vaccine administration coding, and combined well and sick charges during the same visit. Our billing specialists manage the ever-changing rules for payer requirements so you can focus on the things that matter most. By partnering with OP, you'll have access to a team of experts whose proven processes can help you collect more of what you've earned.

#### Reach Your Practice's Financial Goals with OP RCM Partnership

Our team's expertise — combined with our adherence to billing best practices — is the reason our clients see:

- **Increased total payments** - Our clients see an average 9% increase in total payments.
- **Increased cash flow** – We get your claims to payers without interruption so the payers can get their reimbursements to you.
- **Increased payments per visit** – Our clients see a 4.6% increase in payment per visit.
- **Decreased days in A/R** – We work payment denials as we receive them, ensuring that they do not sit in your receivables.
- **Reduced write-offs** – Our experts perform denial follow up so that you get paid for the services you provide versus having to write them off.

Developed and designed by pediatricians, so our solutions think like you do.

# Increase Your Practice Profitability
