

HEALTHY GUT, HAPPY BABY!

Evivo, the clinically proven probiotic baby needs.

- ✓ Nine out of 10 babies lack *B. infantis*, the key good bacteria that digest special nutrients in breast milk and protects baby's gut.
- ✓ Evivo is the only probiotic containing clinically-proven *B. infantis* EVC001.
- ✓ In the critical first six months of life, during metabolic and immune system development, Evivo *B. infantis* EVC001, builds the foundation for good health that lasts a lifetime.

Visit Evivo.com and enter code **EVIVO20** at checkout.

PEDIATRICIAN RECOMMENDED. MOM APPROVED.

Evivo is the first and only baby probiotic of its kind.

1 THE SITUATION:

The good bacteria *B. infantis* is missing from baby's gut. C-sections and antibiotics have interrupted the transfer of this good bacteria from mom to baby during childbirth.

2 THE CONCERN:

Without *B. infantis* in baby's gut, bad bacteria can thrive – particularly those linked to a higher risk of short and long term issues like colic, diaper rash, eczema, allergies, diabetes, and obesity.

3 THE BREAKTHROUGH:

Only Evivo is clinically proven to restore *B. infantis* to baby's gut and reduce bad bacteria that is linked to a higher risk of health issues, now and later in life.

WHAT'S IN EVIVO?

- ✓ Evivo is the only baby probiotic that contains *B. infantis* EVC001 and is stored cold for potency. It starts working immediately and provides gut function within days.
- ✓ One sachet of Evivo powder is fed to baby each day, starting as early as birth and continuing for the first six months of baby's life.
