◆ CENTRALSQUARE
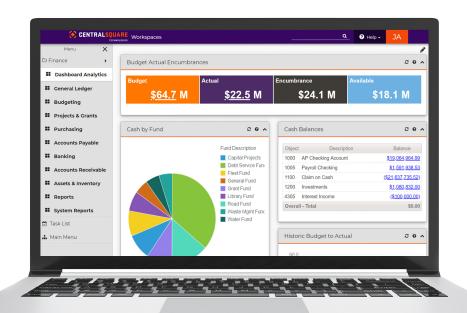

Finance Enterprise

Make your financial data work for you and save time with one powerful solution

WHAT IS THE PROBLEM?

Local government agencies are asked to do more with less and the pressure to maintain error-free books, while lowering expenses can be overwhelming. Many finance departments have too few employees, disparate systems which require manual work and redundancies, minimal support resources, and little money to pay for costly software that could help lighten the load.

WHAT IS THE SOLUTION?

Finance Enterprise combines finance, human resources and payroll into one, easy-to-use solution. Featuring advanced analytics and robust workflow automation tools built around your processes, you can transform how you work to make better, smarter decisions for the financial health of your community. With improved accountability and transparency, the public has more insight into how their tax dollars are spent within their community.

WHAT ARE THE BENEFITS?

At the heart of Finance Enterprise is an HTML5 response interface that is easy-to-use and easier to learn, helping maximize your time to value. The system features workspaces and dashboards tailored to your role, or customized by you to display the information you want to see quickly. Advanced analytics are built in so you can automatically run and deliver needed reports to the individuals you choose, while enabling you to delve deeper into your data to uncover new insights and patterns.
