

Reconstruction and Resurfacing of Various Roads

City of Trenton, New Jersey

Roberts
ENGINEERING GROUP LLC
Women Business Enterprise Certified

- **Street address of subject system:** Nine (9) Roads as follows:

- Chancery Lane
- West Hanover Street
- Mechanics Avenue
- Walnut Avenue
- Tyler Street
- Franklin Street
- Hudson Street
- Logan Avenue
- Cummings Avenue

- **County:** Mercer
- **Municipality:** City of Trenton
- **Total cost of project:** \$2,230,000.00
- The project included full reconstruction or milling/paving of nine roads including new sidewalks, curbs, ADA accessible ramps, and pavement base repairs.
- Roberts Engineering Group worked closely with the City to design, permit and meeting CDBG grant requirements. In addition Roberts Engineering Group Inspected and administered the construction contract.
- Our Construction Inspector on site, played a vital role in examining the contractor's work and assured that the handicap ramps, sidewalk cross slope and driveway cross slope that were built and met the latest ADA requirements. An inspection report was kept daily along with a diary, and photographs with comments throughout construction.
