

OFFICE OF PLANNING ADVOCACY

The need for comprehensive state and regional planning in New Jersey has been recognized and undertaken for over 80 years. The Office of Planning Advocacy, part of the NJ Business Action Center (NJBAC) under the NJ Department of State, coordinates statewide planning to help guide future growth in New Jersey to protect the environment, promote economic vitality, and provide for housing opportunities for all residents. The office implements the goals of the State Plan to achieve comprehensive, long-term planning and integrates that planning with programmatic and regulatory land-use decisions at all levels of government and the private sector.

WHAT IS THE NJBAC?

We are a business-first resource that can help you get answers from government agencies, direct you to appropriate officials or contacts, facilitate meetings and follow-ups with regulatory agencies and so much more, all at no cost and strictly confidential.

Whether you are an entrepreneur, own a business on “Main Street,” are located on a corporate campus, or are interested in expanding your products and services through export, we’re here for you. We are a business advocacy team within the Department of State, dedicated to solving problems and maximizing growth opportunities.

THE NJ STATE PLANNING COMMISSION

The Office of Planning Advocacy supports the work of the State Planning Commission in developing and implementing the State Development and Redevelopment Plan (State Plan). The State Planning Commission consists of 17 members representing state and local government, as well as their residents. Local government and public members are appointed by the Governor and approved by the Legislature for three-year terms. The full Commission generally meets monthly and approved meeting summaries are posted online.

THE STATE PLAN

The State Plan provides a vision for a future that enhances the quality of life for all residents of New Jersey and protects our environment. It is a result of a process that included thousands of State citizens in hundreds of public forums, discussing all major aspects of the plan—its goals, strategies, policies and application. This process ensures that the plan belongs to the citizens of New Jersey, whose hopes and visions have shaped it.

The State Plan Act establishes that the purpose of the State Plan is to:

Coordinate planning activities and establish Statewide planning objectives in the following areas: land use, housing, economic development, transportation, natural resource conservation, agriculture and farmland retention, recreation, urban and suburban redevelopment, historic preservation, public facilities and services, and intergovernmental coordination (N.J.S.A. 52:18A-200(f)).

The State Plan Act also established five mandates for the State Planning Commission, which are carried out by the Office of Planning Advocacy. Those mandates can be found online at the following link: nj.gov/state/dos-statues-planning.shtml.

SO HOW CAN WE HELP?

Our Planning Advocates support business growth in many ways including:

LOCATION, LOCATION, LOCATION

The site evaluator allows you to survey the entire state to find the parcels that may suit your needs. Visit it here: njgin.state.nj.us/OIT_BusinessMap2/

REDEVELOPMENT

We can help you identify brownfields, defined as any former or current commercial or industrial site, currently vacant or underutilized and on which there has been, or there is suspected to have been, a discharge of a contaminant, around the state.

INCENTIVES

Our team can help identify opportunity zones and areas in need of redevelopment as we work to keep abreast of any changes in state planning regulations and economic incentives.

COORDINATION

The office coordinates statewide planning to protect the environment and guide future growth into compact, mixed-use development and redevelopment. The State Planning Act rules are coordinated with all other state departments and agencies rules. nj.gov/state/planning/spc-state-plan-rules-state-laws.html

PLAN ENDORSEMENT COORDINATION

Our team works with local governmental plans to ensure consistency with the State Plan and to ensure a minimum level of State technical assistance along with specified regulatory and funding priority benefits.
