

CODIFICATION SERVICES

Invest in the success
of your community

**GENERAL
CODE**

GeneralCode.com | 800.836.8834

Ensure that local laws are always accurate, well-organized and easily-accessible to your community

Your local government is continually legislating new laws and amending existing laws. Codification allows your legislation to be gathered together by topic and systematically arranged into an enforceable code of laws that municipal officials and constituents can easily reference to find and understand the current laws that affect your community.

What's your community's need?

Create a new code: We work closely with your community to compile your ordinances into a print and/or online code that's organized, accurate and enforceable.

Update my current code: Regular code updates help guarantee that your community always has a current, accurate and enforceable resource.

Get a Legal & Editorial Analysis: Our legal and editorial experts understand the needs of a variety of municipalities. Using this knowledge and experience, our experts can identify conflicts, inconsistencies, duplication and statutory compliance issues in your code and recommend changes.

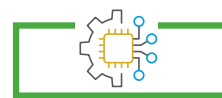

Why codify with General Code

True Partners with a Shared Vision

National Codification Expertise with a Local Focus

Innovative Products

Support Community Growth

Exceptional Customer Care
