

Streamline Your Operations with Online Bill Pay

Our Online Bill Payment Solution offers convenience and ease by providing your customers and residents with **24/7 access** to view their account information and **securely pay** any charge online. This online portal seamlessly integrates with our other Edmunds GovTech modules, which automatically reflects payment activity as it occurs.

Online Bill Pay Features

Increased Revenue Collection & Constituent Engagement

Customers and residents have access to their account information at any time, allowing for easier and more timely payments to be made.

Reduce Call Volume & Foot Traffic

Utilize the web portal and leverage e-bills to save time and paper by offering a direct payment link in e-mails. This provides convenience for both you and your residents.

Project Future Interest Payments

Online Bill Pay is PCI compliant and is capable of reprinting bills and projecting interest to simplify the payment process.

Automate Payment Processes

Streamline your operations with an online customer payment solution or an interactive voice response system that processes payments for you to reduce manual entry and human error.

Collect Payments for Various Charges

Payments can easily be made towards tax bills, utility charges, invoices, facility rentals, registrations, service applications, and more through the online portal.

Take control.
