ALTICE BUSINESS SECURENET

Security + connectivity all in one solution

Reliable 100 Mbps-
2 Gbps Internet

+

Managed DDoS
Protection, Advanced
Malware Protection
and Firewall

Today, being online means being exposed to risk. As malicious threats and disruptions continue to evolve, not having the right solution in place can leave your business vulnerable. Introducing Altice Business SecureNet – our new Internet solution suite that combines connectivity with built-in security.

Simple, All-in-One Solutions
Altice Business SecureNet offers a choice of three all-in-one security solutions - each designed to match your risk level.

24/7 Technical Support
Our experts are always available to communicate directly with your IT/Security staff to ensure your business keeps running.

Prepare and Prevent
When an attack happens, loss of Internet connectivity will have a major impact on your business. Altice Business SecureNet will mitigate or avoid damage so your business can run uninterrupted.
