TRAVEL LT Desktop Folding Shield

## ABOUT

SAFE VIEW TRAVEL LT is a mobile personal shield system that is designed to be conveniently stowed and easily deployed for a safer working environment.

Designed for use in public and commercial spaces such as retail, offices, airports, healthcare, and schools. This shield can be taken anywhere to provide an additional level of protection for in-person interactions. The shatter-proof polycarbonate construction is highly durable and non-flammable compared to other acrylic shields. The magnetic catch allows for easy and secure stowing, while integrated pass through allows for the exchange of documents and small items without compromise.

The TRAVEL LT comes in a convenient standard size, though custom sizes are available. Please inquire with our sales staff for a solution that meets your project needs.

## FEATURES

- No assembly required.
- Ships flat.
- High quality, durable, and strong construction.
- Lightweight, shatter-proof, non-flammable 1/4" polycarbonate.
- Easy to operate magnetic folding catch.
- Hygienic and easy to sanitize.
- Frameless minimal design for any commercial interior
- Covid-19 safety shield.

## OPTIONS

- Custom sizes on request, contact our sales staff for any inquiries.
