

## IMPROVE YOUR WORKFLOW WITH CAR'S PROCESS

**1** Structured Check-In Process sets the stage for success

Attach photos, videos and documents to any service. **2**

**3** Digital vehicle inspections are mandatory.

Copy previous jobs with ease instead of recreating common service. **4**

**5** Quickly & easily dispatch parts orders online through CAR.

Service Notes keep all service related information organized. **6**

**7** Internal Notes can assign reminders or tasks to your team members.

Develop custom reports that help you financially manage your municipal fleet expenses. **8**

## THE FUTURE OF MUNICIPAL FLEET MANAGEMENT

Using CAR's workflow process, it has never been easier to check-in and process vehicles.

Each step ensures accountability and works to identify vehicle needs and match them with municipal needs. This approach is designed to help identify problem vehicles and bottlenecks in the existing process.

With our software, you will be able to better manage the budget, as well as use the data to qualify for Sustainable Jersey initiatives.
