

EDUCATIONAL RESOURCES FOR YOU

Videos, Podcasts, Webinars and Clinical Pathways

CHOP OPEN

CHOP Online Pediatric Education Network (OPEN) makes hundreds of free, virtual pediatric medical education sessions available via a recently improved and enhanced platform. More sessions are added frequently. Visit www.chop.edu/OPEN to register and explore the offerings.

WEBINAR SERIES

Multiple divisions have created webinars to give insight on general pediatric and specialty topics. See which topics are of interest to you.

- Behavioral Health
- Cardiology
- Endocrinology & Diabetes
- Food Allergy
- Gastroenterology
- General Surgery
- Genetics
- Hematology/Oncology
- Immune Dysregulation
- Orthopaedics & Sports Medicine
- Pulmonary & Sleep Medicine
- Transplant
- And more!

Visit www.chop.edu/professional-events

VIDEOS AND PODCASTS

Children's Hospital of Philadelphia (CHOP) offers podcasts and videos on a variety of topics — from exam demonstration videos to informational videos and podcasts about pediatric health issues. Here are just a few examples of the resources you can find online:

Videos

- Thyroid Surgery in Children and Adolescents
- Talking About Vaccines with Dr. Paul Offit
- Pediatric Orthopaedic Exams: The Knee
- Concussion Evaluation

Visit youtube.com/ChildrensHospPhila to see all of our videos.

Podcasts

Episodes of *Primary Care Perspectives: Podcast for Pediatricians with Katie Lockwood, MD*

- HPV management
- E-cigarette use and vaping
- Caring for children in foster care
- Gender and sexuality development
- And more!

Visit www.chop.edu/pcppodcast to see the complete list of episodes.

CLINICAL PATHWAYS

Interdisciplinary teams at CHOP have developed many clinical pathways, and we are proud to offer them as a free resource for clinicians at other institutions.

Clinical pathways help standardize care, improve outcomes and reduce costs. Visit www.chop.edu/pathways for access to more than 150 pathways.
