

Introducing PM Pediatrics Anywhere!

Expert virtual care, right at your fingertips

Connect with a pediatric expert on your schedule, anywhere, using your smartphone, tablet, or computer.

The house call, reinvented

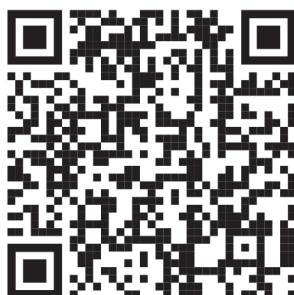

It's more important than ever to stay home as much as possible. But what happens if your child gets sick or injured? What if they, or someone else in your household, starts showing COVID-19 symptoms?

That's where our **PM Pediatrics Anywhere** app comes in. Our app quickly connects you with a pediatric expert, 8AM to midnight, using your smartphone, tablet, or computer.

How it works:

Simply download the **PM Pediatrics Anywhere app** on your preferred device and set up an account. You'll quickly be assigned to a PM Pediatrics expert.
