

What Your Donation Supports

Friends of Children Fund

Your gift to the Friends of Children Fund provides support for the most urgent needs impacting children's health right now. Gifts to this Fund allow the AAP to support the profession of pediatrics and most importantly, help solve the biggest challenges impacting the health of infants, children and teenagers.

Tomorrow's Children Endowment (TCE)

Tomorrow's Children Endowment (TCE) enables the AAP to move boldly forward on the pressing issues related to child health care and the quality of that care. We have the ability; we have the tools; and the TCE provides a guaranteed source of funding to make it all possible. Your gift is a wise investment that stands forever as a statement of your commitment to children and the practice of pediatrics.

Disaster Recovery Fund

The AAP Disaster Recovery Fund provides resources to help care for children and families recovering from trauma and loss. Your charitable donation to the Disaster Recovery Fund extends resources and empowers pediatric professionals caring for children in the toughest of times.

Program Support

You may contribute to a specific program or topic that is important to you. A designated gift will go directly to the program of your choice.

Every gift counts. Thank you for your vital support.
