The CALM Baby Method

Solutions for Fussy Days and Sleepless Nights

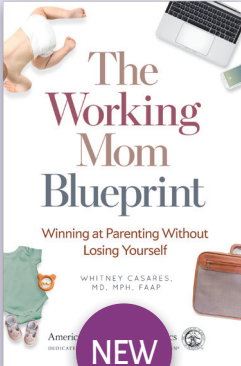

By Patti Ideran, OTR/L, CEIM, and Mark Fishbein, MD, FAAP

Whether their babies are colicky, fussy, or just sometimes cranky, all parents of newborns can benefit from the proven techniques in *The CALM Baby Method*. With decades of expertise as a pediatric occupational therapist and a pediatric gastroenterologist, the coauthors have helped thousands of parents soothe their high-needs infants, improving attachment, sleep, feeding, and overall quality of life for the whole family. Parents will learn possible causes of their baby's crying and ways to help, including information on reading their baby's cues, attachment, infant massage, positioning, and nutrition.

“We have been gifting the *Heading Home With Your Newborn* books, authored by Dr Laura A. Jana and Dr Jennifer Shu, to our first-time and returning parents since the 1st edition was published in 2005. Our families love receiving this easy-to-read and informative book, giving them accurate and up-to-date information that they can refer to as needed. Not only is this AAP book a great resource, but it is also a confidence-building tool with which we welcome families to our practice. We highly enjoy utilizing these books as well as the American Academy of Pediatrics’ many other available resources.”
