

ABOUT TMJ SERVICES

TMJ Services was founded as a mechanism to train Network Providers in other localities throughout the United States and Canada, allowing the Urbanek Device to reach a larger population demographically.

TMJ Services teaches doctors and practice staff the science and mechanics of TMD patient care and how the Urbanek Device is significantly different from other oral devices used to treat TMD.

TMJ Services also teaches dental colleagues and staff how to market the device to their patient population, building their practice with referrals from other healthcare providers such as ENT's, Chiropractors, Walk-In Clinics, PCP's and Physical Therapists.

TMJ Services assists network provider team members with comprehensive training for team members (Receptionists, Financial Coordinators, and Dental Assistants). Our Premium Marketing Program walks the practice through a tried and tested protocol that has proven to be effective and successful for building or growing a practice.

DID YOU KNOW that nearly 50% of all women suffer with unexplained headaches, migraines, earaches, neck pain, jaw pain, vertigo or shoulder/arm pain?

Most people do not realize that these symptoms are due to the inflammation in their JAW JOINT.

Dr. Urbanek's TMJ Splint is a small acrylic piece that fits comfortably in the mouth and is uniquely designed to relieve the jaw joint inflammation. It's more than just a dental splint or mouth guard...

it's a life changer!

BECOME A TMJ EXPERT

MEET DR. URBANEK

Dr. Anthony P. Urbanek, D.D.S., M.S., M.D., (Dr. Tony) is both a Physician, Dentist, and Oral Maxillofacial Surgeon, board certified by the American Board of Oral and Maxillofacial Surgery. Dr. Urbanek has been the leading authority treating TMD in Middle Tennessee communities for over 40 years.

Out of frustration with surgical results and years of research and patient care, he designed and **patented a non-surgical TMJ device**, the Urbanek Device and Protocol. It is **designed to decrease inflammation and 90% of the load** on the temporomandibular joints. Using **this device and protocol 95% to 98% of TMD patients are successfully treated without surgery or medication.**

“

Dr. Urbanek, the inventor of the patented, drug-free, non-surgical, permanent solution to jaw joint problems, arrived at this treatment after performing thousands of surgeries and realizing the relief was often only temporary. He went above and beyond the typical dental mouth guard or splint. The result: **To-date over 3,000 patients have been treated with this pioneering new method with over 95% success.**

ADVANTAGES OF BECOMING A NETWORK PROVIDER

CASH REVENUE WITHOUT INSURANCE CONTROL

Develop a Specialty for your Practice without long/lengthy extensive training and accruing huge debt

Increase Practice Revenue without Insurance Control

Increase the Value of Your Practice at the time of Transition

Expand the Scope of Your Practice while Increasing Your Patient Base

Have your own niche within your practice, allowing you to stand out from all the other competitive practices

... delivering The Urbanek TMJ Splint has become my favorite service offered, because there is no better feeling than eliminating the pain that my TMD patients have struggled with for most of their lives, not to mention it is the quickest and easiest money I've ever made.

— Dr. Brittany Westerman, Licensed Provider
