

# Dynamic Navigation in Endodontics

## Hands on Workshop

Dynamic Navigation has been used in different fields of medicine since the 1990s. Despite the very high demand for accuracy and precision of surgical and non-surgical Endodontics, the use of dynamic navigation in this field only began in recent years. Dynamic Navigation can facilitate conservative Endodontic procedures, which arguably leads to improved patient-centered outcomes.

**Date:** September 25, 2021

**CEUs:** 6

**Location:** 1140 Sheppard Ave West, Unit 10.  
Toronto, Ontario.  
M3K 2A2

**Tuition:** \$99.00 CAD

**Registration** 8:30 am

**Course:** 9:00am - 4:00pm.

Continental breakfast and lunch provided

**Copy of the industry's leading Navigational Planning Software a \$1,295 CAD value included free for all attendees!**

To register, email [Kemisha@claronav.com](mailto:Kemisha@claronav.com)

### Learning objectives:

- 1) Understand the principles of Dynamic Navigation
- 2) Understand the different capabilities of Dynamic Navigation in Endodontics
- 3) Understand some of the subtleties involved in implementing Dynamic Navigation within the Endodontic practice.

Dr. Bobby Nadeau grew up in Quebec, Canada. He graduated with a DDS from Dalhousie University, Faculty of Dentistry in Halifax, Nova Scotia, Canada. After one year of private practice, Dr. Nadeau pursued graduate studies at the University of Toronto from which he received his M.Sc. in Endodontics in 2019. Dr. Nadeau's main interests in Endodontics include the integration of Dynamic Navigation with Microscope based Endodontics, decision making and outcomes in Endodontics and restoratively driven Endodontics. Dr. Nadeau is the owner of Kingston Endodontics, a private practice limited to Endodontics, located in Kingston, Ontario, Canada

ClaroNav is designated as an Approved PACE Program Provider by the Academy of General Dentistry.
