

Dear Doctor and AAOMS Attendee.

There is no better feeling than eliminating the pain your patients have been struggling with for years, would you agree? My name is Tony Urbanek. For 40 years, as practicing Oral and Maxillofacial Surgeon, I struggled to find the solution for treating patients with TMD. For the past 10 years I made it my primary goal and passion to ACTUALLY find the solution.

I am sure you are aware of the TMJ conundrum. Seventy-Six million people, primarily females, in the US suffer from the symptoms of TMD, many of which go undiagnosed, misdiagnosed, untreated, or treated without long term resolution.

After several years of investigation, I have uncovered the actual cause of TMD. What I found has totally changed the paradigm for understanding problem. Understanding the common denominator for TMD led to the non-surgical, non medicated solution. Currently, we have successfully treated over 3000 patients with a measured 95% success rate.

I am now sharing these findings and success with my health care colleagues. We call it the Urbanek Device and Protocol even though our patients wanted to call it the “Saved my Life Device” or “Miracle Device”. After resolving 20, 30, and even 40 years of unrelenting symptoms, these are some of the names suggested by patients. I couldn’t agree to these stilted terms, so it became Urbanek Device.

We are now offering the opportunity for selected doctors and practices to become members of our licensed, patented, FDA cleared and territory protected Urbanek Device and Protocol providers. The advantage of becoming a licensed provider include financial independence from insurance control with a cash only service fueled by a never ending line of new patient referrals from physicians, nurse practitioners, physicians assistants, and even the dental competition in your community who find you have the solution for TMD. Becoming a licensed Urbanek Device and Protocol provider will allow you to predictably help thousands of patients in your community who have suffered from the devastating symptoms of TMD, simultaneously making you and your practice the most influential in your area.

More information regarding our company, service, discovery and experience is contained in the enclosed brochure and found at www.tmjservices.net

Sincerely yours,

Anthony P. Urbanek, D.D.S., M.S., M.D.
