- Includes wireless pod with batteries, tips, charger & dongle, as well as a wired kit with wired pod & TRIOS 4 smart cord

3Shape TRIOS 3

- Scanning technology of TRIOS 3 Basic
- Includes patient excitement apps to drive engagement and help increase case acceptances:
- TRIOS Smile Design to show patients their future smile and advance case acceptance
- TRIOS Treatment Simulator to show proposed outcome of orthodontic treatment, to gain greater case approval
- TRIOS Patient Monitoring to track dental changes and identify conditions sooner

3Shape TRIOS 3 Basic

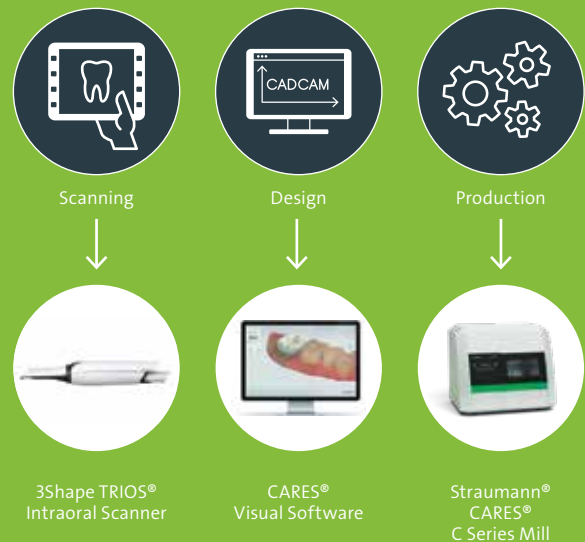

- AI scan technology removes unnecessary images of soft tissue as you scan
- Realistic colors and shade measurement for patient engagement and high-quality restoration results
- Documented accuracy*
- Scalable technology for seamless upgrade within the TRIOS family

3Shape TRIOS Design Studio

YOUR OPEN CHAIRSIDE SOLUTION

TRIOS intraoral scanners, TRIOS Design Studio®, and the Straumann® C series mill form a powerful, fully-validated workflow for in-house scanning, design, and milling. Easily create crowns, inlay/onlays, and veneers right in your practice for a seamless, integrated workflow.

More Than Great Products

Straumann Group and 3Shape are working together to change the world of dentistry. Both companies have created a commercial partnership that offers a wide range of validated and integrated digital workflows between their systems. Dental professionals will now be able to benefit from having 3Shape technology, complemented with the history, product portfolio, and service quality of the Straumann Group brand.
