

## Stryker Impaction Drills

### **Nuell, Inc. is repairing, and will continue to service, these drills.**

Don't be forced into purchasing a new, unfamiliar drill system when your preferred drill can be repaired for a fraction of that cost.

In addition to the Impaction Drills, Nuell, Inc. also maintains support for all Core, TPS, Command 2, and Command hand pieces. We continue to support the accessories to these systems, as well.

Nuell, Inc. recommends that you continue to follow the IFU's for these particular devices, which were provided to you with the original purchase of your equipment. All hand pieces need to be sent in every (6) six months for routine maintenance in order to maintain optimal performance.

### **Service agreements are available for (5) or more hand pieces**

Nuell has supported the AAOMS community for over 50 years, and as an ASI approved program, AAOMS members receive a 10% discount off all repairs along with other special benefits throughout the year. If you are not yet enrolled in the Nuell program, be sure to have your AAOMS ID number handy when you call us for the first time.

We look forward to continuing to serve you, our valued customer.

Sincerely,  
David C. Holsclaw  
Executive Vice President
