

# Meet BioXclude®

Amnion-Chorion Allograft

## THE MOST VERSATILE PRODUCT ON YOUR SHELF

BioXclude® is a barrier membrane with unique biological properties (growth factors, immunomodulatory cytokines and infection-fighting peptides) that can be used in a variety of dental, endodontic, oral maxillofacial, and periodontal regenerative procedures.

### EASY TO USE

- Thin and adaptable
- No trimming necessary
- No orientation
- No fixation necessary
- Safely touches tooth surfaces
- 5-year shelf life

### MULTIPLE APPLICATIONS

- Socket Preservation
- Ridge Augmentation
- Sinus Perforation
- GBR / GTR
- Implant Dentistry
- Tooth Furcations
- Graft Site Healing

### SUPERIOR OUTCOMES

- Documented early healing
- Proven antibacterial against relevant oral pathogens
- Case documentation across applications

Committed to results, supported by over 10 years of research

BIOXCLUDE® IS THE  
**MOST RESEARCHED**  
PLACENTAL MEMBRANE  
IN DENTISTRY

Snoasis Medical **sets the standard for placental membrane research in dentistry** with over **10 years of research** and **46 clinical publications** to date. We love good science and research so much, that it is one of our core values as a company.

**46 Clinical Publications**

documenting safety and efficacy in dental and oral maxillofacial surgery
