

Scan and Track your **Implant Inventory**

AAOMS 2021 Dental Implant Conference

20% OFF

Enter promo code **AAOMS21** at registration

Scan products in & out

With our dedicated iOS app, easily keep track of inventory by scanning products in and out.

Never run out of supplies

Set alerts when products are about to expire or run low, and never be caught off guard again.

Complete visibility

Real-time reporting keeps spending and supply availability up-to-date and accessible from anywhere.

Implant tracking

Track all implants, cover screws, bone grafts, healing abutments, and membranes by lot number and expiration date.

Track all medications

Monitor all general and emergency medications, set low stock and expiration alerts.

Infection Control Records

Keep up-to-date with all certification renewals, SDS documents and infection control records.
