Wiser is a lightweight, intuitive and compact diode laser designed to provide high performance with up to 16W of power. It is easy to use for beginners and maximizes the performance of experts. Wiser is a dental laser designed for use in endodontics, periodontics, soft tissue surgery, therapy, photobiomodulation, and whitening. The sophisticated TOP Tissue Optimized Pulsing feature gives the right power for every type of soft tissue. Its advanced three mode software (Assisted, Fast and Advanced) includes the LAP, Laser-Assisted Protocol, that simplifies and accelerates everyday treatments: it is a guide designed to accompany the user and guarantee maximum safety. Portable and chargeable; select treatments quickly with the touch icon display.
