

# LAST-MINUTE CANCELLATION? WE'LL TAKE IT FROM HERE.

Introducing **Fill-In**, the first and only solution that helps find & fill last-minute openings... automatically!

**Fill-In detects a canceled appointment in your schedule.**

**We reach out to patients who are most likely to want that spot.**

**You approve the new appointment right in the Lighthouse portal.**

Lighthouse 360 already helps prevent no-shows and cancellations by 40%, but now we're doing even more. For those inevitable patients who still call in last minute, we created **Fill-In**—the only program that automatically detects AND fills last-minute cancellations.

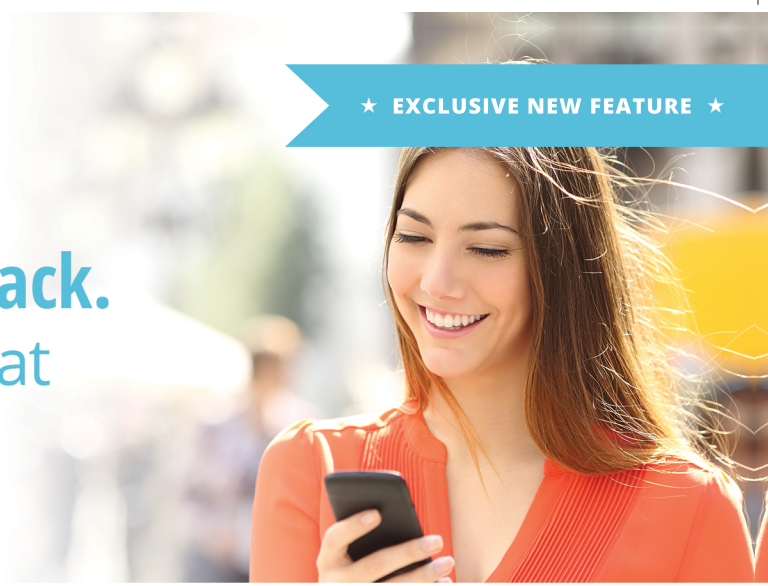

- ✓ **Keep your chairs full**, even when patients cancel last-minute.
- ✓ **Delight your patients** by offering more immediate appointment times.
- ✓ **Improve your bottom line** by ensuring valuable chair time never goes to waste.
- ✓ **Use one system for everything.** From appointment reminders, to reviews, to filling last-minute openings, Lighthouse 360 supports you from every angle.
- ✓ **Save time and effort** for your front desk by avoiding the last-minute scramble.

Just one more way Lighthouse 360 helps your practice grow.

# Introducing Patient FastTrack.

New patient registration that won't hurt a bit.

The next generation of paperless registration is here — faster, easier and totally secure.

**Step 1**

Tailor your paperless registration with the questions & agreements you choose.

**Step 2**

New patients receive a friendly text, then register (and eSign) right on their phone.

**Step 3**

Data is securely sent to your Lighthouse portal – plus directly to select PMS!

## Faster and easier for patients. Better for you.

### Less time and effort

Shorten and simplify the registration process for your front desk.

### Customized to your practice

Easily edit the intake experience to suit your unique practice needs.

### Shorter wait time

Patients register in advance instead of sitting in the waiting room.

### Secure patient data

Patient FastTrack is fully HIPAA compliant.
