

Send in a resident tip!

As a new generation of dentists begin residency in oral and maxillofacial surgery, they will have to learn new things and adapt to new circumstances. During this chapter in their lives, they may look to other residents and OMSs for pearls of knowledge and tips for more support. While you are giving tips to new residents at your program or simply want to give back and offer support, send a resident tip to be featured on ROAAOMS social media.

To share a resident tip, write a few sentences with your advice for other residents and send it to Laurie Oddo, Manager of Resident Affairs and Advanced Education, at loddo@aaoms.org.

Please submit your tip to Laurie Oddo at loddo@aaoms.org.
