E3010LS Exam Chair

Lower starting height with faster recline

Boyd took its most popular Exam/Minor Procedures Chair and made it even better! Using state-of-the-art components, the new E3010LS incorporates the best features of our award-winning – LC model chair by making the –LS start 2" lower at the home position and recline up to 35% faster*. This means you get Boyd's proven reliability and ergonomic design with more versatile positioning and improved efficiency. A truly winning combination!

STANDARD FEATURES
