

INTRODUCING

# The All-In-One Toolkit To Grow Your Practice.

**We analyze everything, automate your day, find hidden revenue, fill your schedule & so much more.**

Dental Intelligence connects to your Practice Management Software then runs in the background, tracking everything, analyzing, automating, finding opportunities, & communicating with you.

## Improve Team Performance

Unlike anything ever seen in the Dental industry. A system for training your team, tracking performance, & always knowing exactly what to improve.

## Improve Patient Care

Built-in, automated solutions for keeping patients from falling through the cracks and helping them get the treatment they need.

## Increase Practice Profitability

A proven system that fills your schedule, keeps your patients coming back, finds hidden revenue, increases production and collections, and more.

***"We're about \$300,000 over last year's production which already puts us above \$1 million. The first time we've ever been above a million this early in the year."***

-Burt Arthur - CFO Northcutt Dental
