

Straumann® CARES® 3D Printing Solutions: the Next Generation

An easier way to 3D print for your
lab or practice

CARES® P series delivers a new dimension in fast and professional 3D printing, allowing you to produce top-quality dental products in-house and on-demand.

Straumann P10+ Printer and Capsule System

Easy-to-Use 3D Printer Specifically Designed for Dental Practices

3D printing has never been easier

- Fast print speed*
- Single-use capsules allow for quick and mess-free prints
- No prior 3D printing knowledge required
- No need to retrofit small workspaces
- Many indications & broad capsule portfolio
- Validated workflows ensure repeatable quality
- No time-consuming cleaning in combination with P wash & P cure

P Pro Resin Capsule System for P10+

All-in-one, simplified printing solution. One Print, One Capsule.

- P10+ capsule packaging is color coded for easy identification
- Capsule system features a single use consumable system
- Build platform, resin reservoir, and resin pouch – packed all together

*Basic gingiva mask model print duration approx. 10 minutes

Straumann P20+

Next Generation Improvements for Clinicians & Labs

- Improved print speeds
- Larger LCD screen with touch control
- Validated workflows ensure repeatable quality
- Plug and play features ensure ease-of use
- Easy, user-friendly device
