

# Healthcare industry

## Experience across the healthcare continuum

Increase efficiency. Lower costs. Improve care. These are just some of the mounting pressures healthcare executives face. Positioning for long-term success in a value-based world requires significant investments in processes, technology, and programs designed to keep people out of facilities. With so much uncertainty in this complex environment, do you feel confident in your organization's ability to stay ahead? We understand the forces impacting our clients across the entire continuum and can help you effectively balance risk and opportunity to achieve your goals.

## Nationally recognized leaders

### Publication contributions

Our team of nationally recognized thought leaders is committed to staying ahead of the curve. Our experts are regular contributing authors at national publications such as:

- MarketWatch
- McKnight's Long-Term Care News
- Becker's Hospital CFO Report
- Becker's Hospital Review
- Senior Housing News
- STAT News

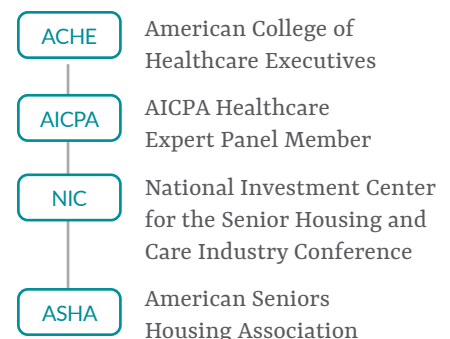

### Conference and association participation

We are also sought-after presenters at numerous national and state healthcare industry associations and conferences, including:

- LeadingAge

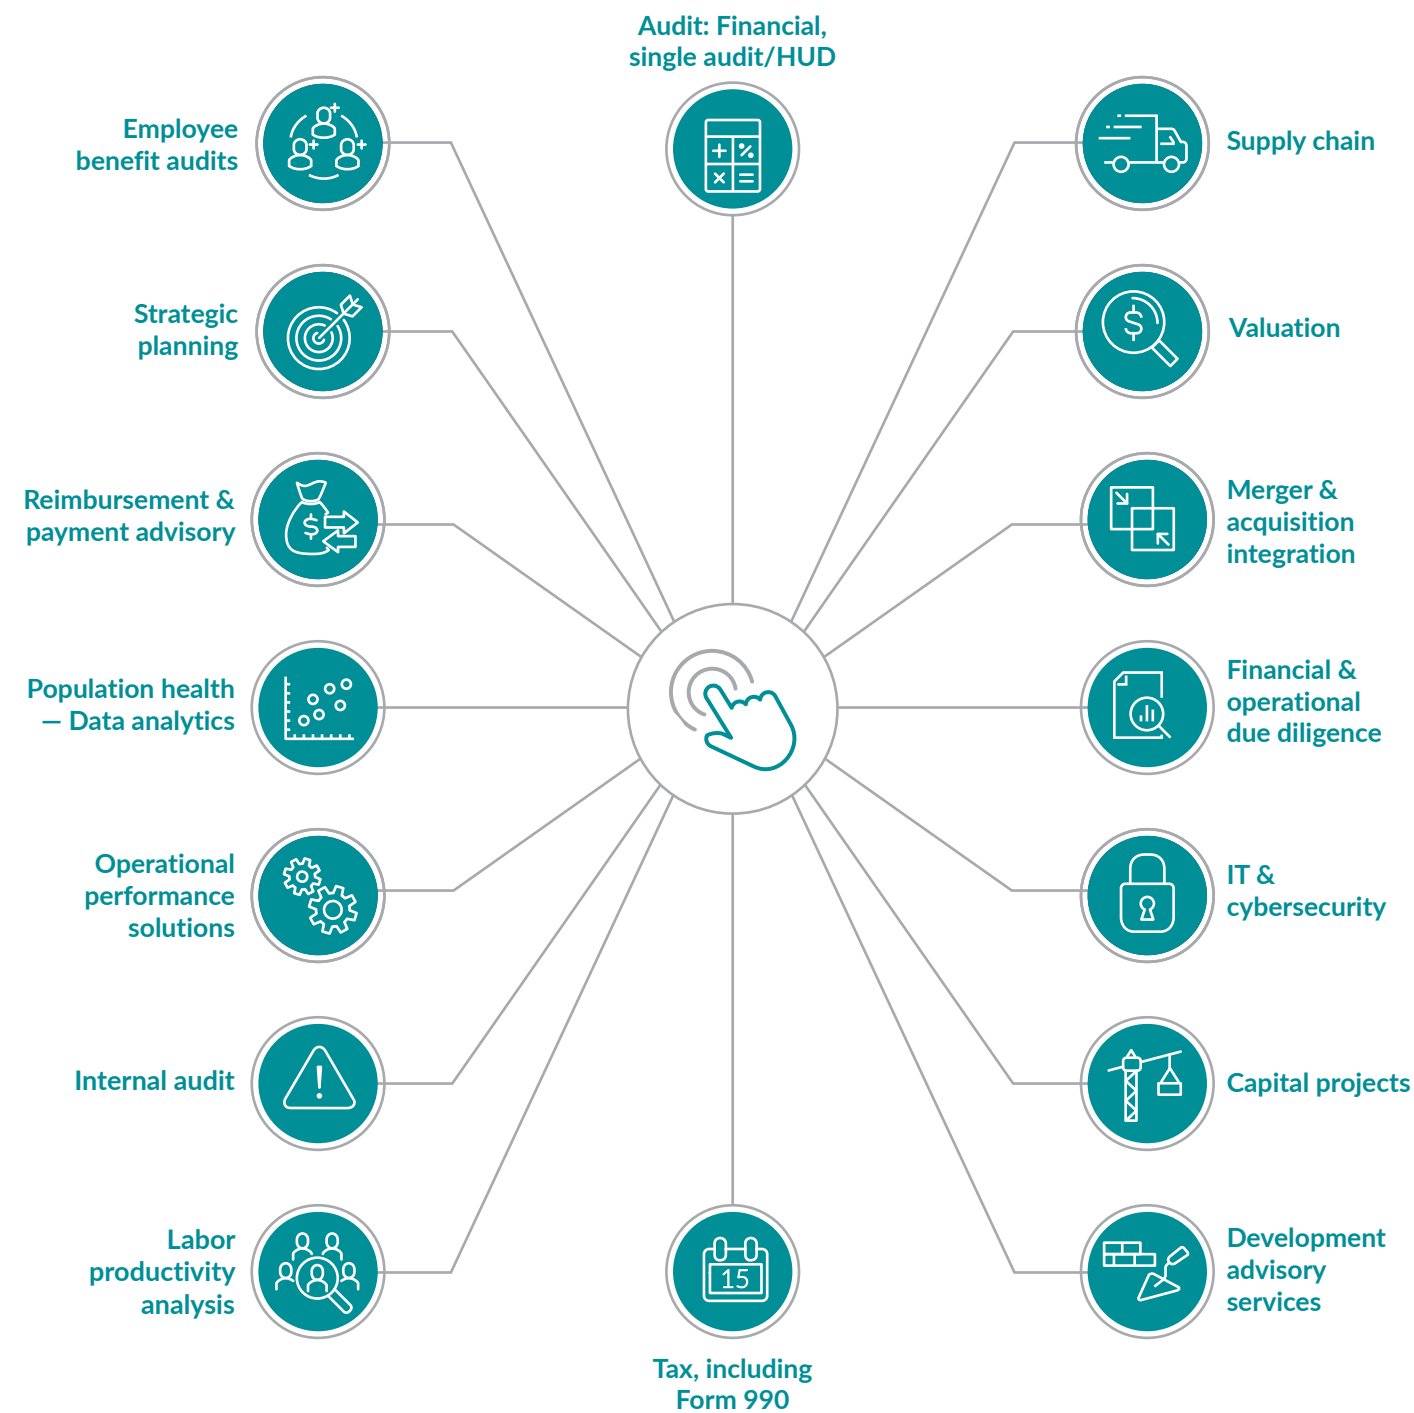

- Multiple state hospital associations

- Lincoln Healthcare Leadership Events

# A full array of solutions

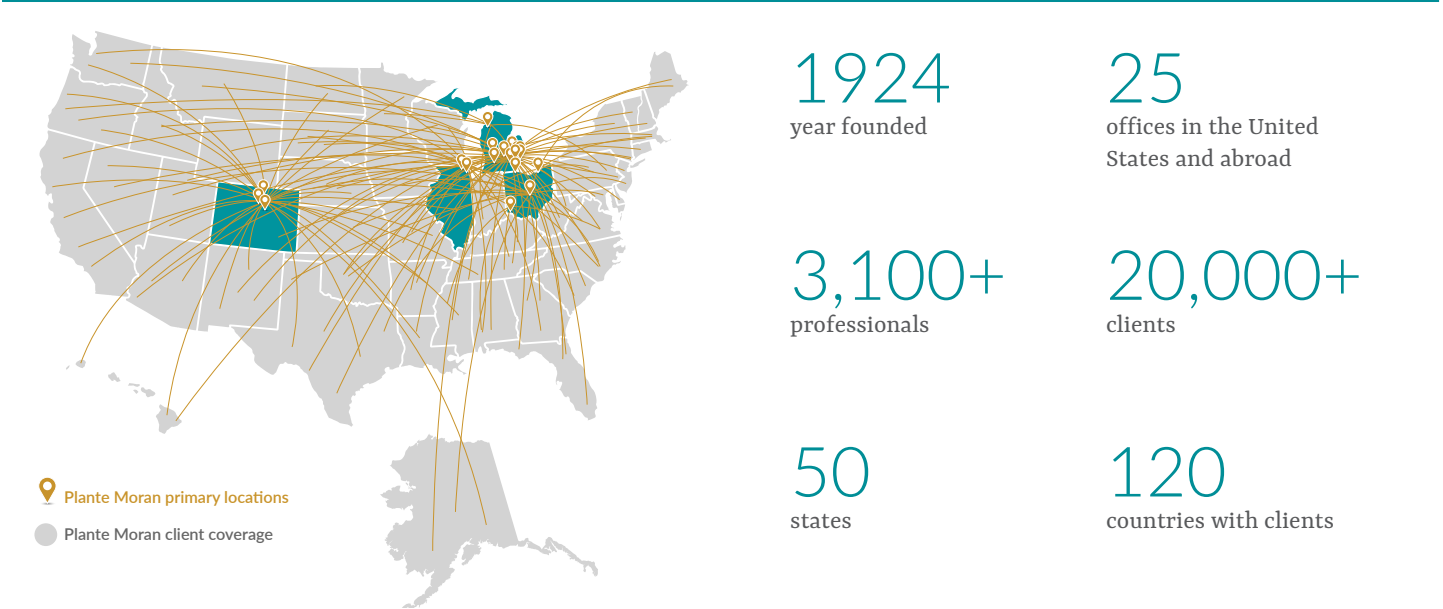

Our deep roster of operational and financial experts are ready and waiting to deliver pertinent and practical solutions to all of your challenges. Our clients are the center of everything we do.

# About Plante Moran

Plante Moran is among the nation’s largest certified public accounting and business advisory firms.

## Firm at a glance

## We’re structured differently — to serve you differently

Our “one-firm” firm philosophy is a unifying structure that prioritizes client service over maximizing profits. Unlike other accounting and business advisory firms, we don’t have office-level profit centers, meaning our offices don’t compete. What does that mean for you? It means you receive the collective power of the firm and the expertise you need regardless of location. The result: seamless service, a personal touch, and future-focused thinking.

### Seamless service

One touchpoint will give you unfiltered access to the right healthcare experts. We collaborate across the entire healthcare continuum to provide solutions for the many challenges facing healthcare providers in today’s rapidly changing landscape.

### Personal touch

By combining our expertise across the full continuum of healthcare services, we provide the personal service you need. We grow our relationship into a true partnership, working side by side with you to help best deliver services that keep your patients — and your bottom line — healthy.

### Future-focused

It’s difficult to have foresight for the future when your team is busy coping with today’s concerns. Our team always adopts a broader perspective, helping you envision what your organization and the healthcare landscape will look like in the years ahead.

# Value delivered

## “ Plante Moran has delivered above and beyond my expectations.

Their staff is very skilled as well as personable; their audit process is efficient and very thorough; and their reimbursement specialists have identified significant opportunities for additional Medicare reimbursement for our hospitals. We've also benefited from financial benchmarking Plante Moran has provided us in relation to our peers. In addition, they are well-versed in big-picture healthcare industry trends and federal legislation. They keep our board and management team briefed in these important areas. Some of the larger firms we've used in the past tend to get bogged down in the details of the audit and don't address bigger picture items. Plante Moran's audit process is efficient, well-run, well-organized, and very thorough.”

— Edward Chu, Chief Financial Officer, Hawaii Health Systems Corp.

## “ Our expectations for first-year financial audit and cost reports were more than exceeded.

The team was exceptionally prepared with detailed schedules and great communication. Their healthcare experience was invaluable, and because they were so efficient and knowledgeable, we finished one week ahead of schedule. We chose Plante Moran because of their entrenchment in the Chicago area, and we were looking for a strategic partner that could provide us additional services and expertise to help us reach our future goals. I feel confident in our future with Plante Moran as our partners.”

— Lori Altman, CFO, Central Baptist Village

## “ We chose Plante Moran because they proved during the proposal process that they understood our specific needs and clearly articulated solutions to meet our goals.

Every team member was a great organizational fit for us, and the technical expertise they provided at every level was exceptional. They are true collaborators and excellent communicators, which was the foundation for a great partnership.”

— David Hakanson, Vice President, CIO, and Chief Innovation Officer Saint Louis University & SLUCare Physician Group
