Reprise Shelving

Reprise Shelving

With Reprise you don't have to sacrifice function or aesthetics. This value-priced alternative to traditional wood shelving is versatile enough to suit any space requirement, design, or layout.

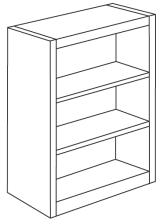

The library is no longer a sea of brown! By mixing and matching vibrant colors with neutral tones and wood grain finishes, Reprise creates library interiors that are completely in step with current design trends.

Reprise Shelving features a wide range of options, including multiple heights, mobile and stationary units, a variety of different shelf types, and both solid colors and wood grain finishes. Complete the installation with coordinated circulation desks, tables and seating choices from Brodart.

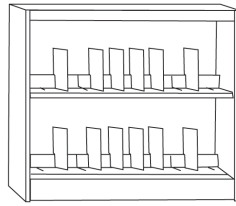

Reprise — the smart choice for furnishing modern library spaces!

Configurations

Stationary Units are available in single-faced and double-faced configurations, in heights of 30", 36", 42", 48", 60½", 72", 82", and 90". Shelf depths: 10", 12", 16".

Mobile Units feature concealed casters and are available double-faced, one or two bays wide, in heights of 30", 36", 42", 48", and 60½". Shelf depths: 10", 12".

Mobile Shelving Unit

Available Finishes

Reprise is available in a wide range of finish options for both the outer shell and shelves — from vibrant colors to wood grains.

Features

- Thermally-fused laminate construction:
 - Enables an array of color and finish options that can be mixed or matched on a single unit to support any aesthetic
 - Provides an economical alternative to our Classic shelving
- Reprise Shelving is designed using the starter and adder concept, to create a “built in” look while saving cost; 36" from center to center of the uprights
- End panels and intermediate panels are 1" thick thermally fused laminate
- Laminate shelves are $\frac{3}{4}$ " thick, thermally-fused laminate
- All exposed edges are banded with matching 2mm PVC edgebanding, providing excellent durability and a finished look from any angle
- $\frac{1}{4}$ " thick back panels and dividers (specified separately) allow specifiers to tune installations to their needs; panels and dividers are not required for the structural integrity of the shelving
- Omega (steel) shelves are available to support additional aesthetics and functions; powder coat finishes are durable and attractive, available in standard Brodart colors and textures
- Optional continuous tops and decorative end panels provide colorful accents for creating signature installations with a unique design aesthetic
- Steel shelves are 18-gauge stamped steel, providing the durability and performance that are hallmarks of all Brodart products
- The back edge of the “Book-Stop” shelf is bent upward to form a 90° angle, 1 $\frac{5}{8}$ "H above the shelf surface, to function as a book stop
- Made in the USA and backed with a 25 year warranty: specify with confidence, knowing that Reprise Shelving will perform for years to come!
