

AAS-CSSA-SSSA Journals Peer Reviewer Registration

ASA, CSSA and SSSA journal Editors are expanding their peer reviewer options to provide more diverse and timely feedback to authors. Even if you have never reviewed, please register to begin reviewing today and extend your direct support to the research community. Anyone with expertise in a manuscript's research area can become a peer reviewer.

You simply need subject-specific knowledge to evaluate the manuscript and provide a constructive review for our editors. Our journal editors will coach you through the process and our supportive staff is here to guide you along the way. Gaining experience as a peer reviewer will help you build confidence, gain valuable experience, improve your own research and expand your visibility within your research area. We also offer recognition programs for our reviewers.

Your support as a peer reviewer will provide support to the research publishing community in a time of need and help the ASA, CSSA and SSSA continue publishing high quality and timely research.

Getting Started To begin, you will need to create an account in ScholarOne, our submission system. Decide which journal(s) you believe you qualify to peer review and direct your browser to the appropriate link below.

If you already have a ScholarOne account for the journal, you are set up to begin reviewing. Please move to **Step 3**.

If you are unsure if you have an account, or cannot remember your password, please click the 'Reset Password' link.

Agricultural & Environmental Letters: <https://mc.manuscriptcentral.com/ael>

Agronomy Journal: <https://mc.manuscriptcentral.com/agron>

Agrosystems, Geosciences & Env.: <https://mc.manuscriptcentral.com/agrosystems>

Crop, Forage & Turfgrass Management: <https://mc.manuscriptcentral.com/cftm>

Crop Science: <https://mc.manuscriptcentral.com/crop>

Journal of Environmental Quality: <https://mc.manuscriptcentral.com/jeq>

Journal of Plant Registrations: <https://mc.manuscriptcentral.com/plantreg>

Natural Sciences Education: <https://mc.manuscriptcentral.com/nse>

Soil Science Society of America Journal: <https://mc.manuscriptcentral.com/sssai>

The Plant Genome: <https://mc.manuscriptcentral.com/plantgenome>

The Plant Phenome Journal: <https://mc.manuscriptcentral.com/tpji>

Urban Agriculture & Regional Food Systems: <https://mc.manuscriptcentral.com/urbanag>

Vadose Zone Journal: <https://mc.manuscriptcentral.com/vzi>

If you would like to register to peer review for multiple journals, this is welcomed. Unfortunately, you will need to register individually in ScholarOne with each journal title due to system limitations.

Step 1. After reaching the journal log-in page, click the 'Create an Account' button to begin.

To create an account, complete the requested information in the following three sections: email/name, address, and user ID & password. Please ensure that all required information is entered prior to selecting 'Next' on each screen.

Step 2. Please enter 2-5 keywords to represent your experience and expertise when creating your account. These keywords are used to connect reviewers to relevant manuscripts.

Step 3. Please email the Managing Editor of the appropriate journal(s) with your name and contact information to notify them that you're interested in peer reviewing for the journal. We will contact you to follow up.

Agricultural & Environmental Letters: ael@sciencesocieties.org

Agronomy Journal: aj@sciencesocieties.org

Agrosystems, Geosciences & Environment: age@sciencesocieties.org

Crop, Forage & Turfgrass Management: cftm@sciencesocieties.org

Crop Science: cs@sciencesocieties.org

Journal of Environmental Quality: jeq@sciencesocieties.org

Journal of Plant Registrations: jpr@sciencesocieties.org

Natural Sciences Education: nse@sciencesocieties.org

Soil Science Society of America Journal: sssai@sciencesocieties.org

The Plant Genome: tpg@sciencesocieties.org

The Plant Phenome Journal: tpji@sciencesocieties.org

Urban Agriculture & Regional Food Systems: uarfs@sciencesocieties.org

Vadose Zone Journal: vzi@sciencesocieties.org

You're all set! If you have any questions or aren't sure which journal would be the best fit for your experience, please contact Becky Funck, Senior Managing Editor, for more information at rfunc@sciencesocieties.org.
