

FREE EVALUATION SOFTWARE AVAILABLE AT [www.simbio.com/free-eval](http://www.simbio.com/free-eval)

## Ordering from SimBio: The SimUText System®

The SimUText System allows us to provide instant feedback to students and lets you assign due dates, monitor student progress, and compile scores. Once you select modules, SimBio will create a custom SimUText for your course. Students in your course will then subscribe to your SimUText and will be able to access the modules on their own computers, on school computers, or both.

### Ordering in 3 Easy Steps

1. Request free evaluation software at this web address – <http://simbio.com/free-eval> – and preview modules of interest.
2. Select the modules you'd like us to include in the SimUText for your course. (If you'd like input, we'd happily put you in touch with one of our content or ordering specialists.)
3. To initiate an order, you can complete our online order form at <http://simbio.com/simutext-inquiry>, or you can email or phone us.

### Pricing

 SimBio Interactive Chapters .....	\$10.00/chapter
 SimBio Virtual Labs .....	\$6.00/lab

#### SPECIAL OFFERS

Unlimited SimBio Virtual Labs (labs only) .....	\$49
SimUText Unlimited (any modules) .....	\$89

#### EXAMPLE

1 SimBio Interactive Chapter	\$10.00
2 SimBio Virtual Labs	\$12.00
<b>Total Cost Per Student</b>	<b>\$22.00</b>

### Payment Options

**Regardless of the payment option you choose, prices are on a per-student basis. A subscription must be purchased by or for each student.**

#### ONLINE PURCHASE BY STUDENTS

Most instructors opt to have students purchase their own subscriptions through the Student Portal of our SimUText System® during the student registration process.

#### DEPARTMENTAL ORDERS

You are welcome to use departmental funds to pay for student subscriptions. Please get in touch for additional information.

#### BOOKSTORE & PUBLISHER ORDERS

We can work with most publishers and school copy shops to include the cost of our materials in the price of the lab manuals and course packs. We can also arrange to have SimUText Voucher Codes available for student purchase through university bookstores, although this will likely incur extra costs for your students as there is often a bookstore markup.
