

2021 ENTOMOLOGY

Oct. 31 – Nov. 3 | Denver, CO

IN-PERSON & VIRTUAL

A one-of-a-kind conference offering four days of in-person meetings and three months of virtual content.

RECONNECT with colleagues and collaborators.

EXPLORE the latest scientific research.

DRAW INSPIRATION by sharing ideas and hearing about award-winning careers.

IN PERSON in Denver, Colorado, **OR VIRTUALLY** from anywhere in the world.

2021 ENTOMOLOGY

Oct. 31 – Nov. 3 | Denver, CO

ADAPT. ADVANCE. TRANSFORM.

LEARN

When science is about building on and connecting with the ideas of others, it pays to surround yourself with the leading community of entomologists. Discover the latest research at the world's most comprehensive insect science conference.

SYMPOSIA—87 sessions highlighting all facets of academic, industry, and government research.

WORKSHOPS—Ten daily interactive, hands-on learning opportunities designed to build your skills and resume.

EXHIBITS—From artisans to equipment manufacturers, the virtual and in-person exhibits offer you an opportunity to interact with the people and companies creating the latest product solutions.

CONNECT

Chance encounters at the ESA Annual Meeting have reinvigorated careers and sparked countless research collaborations. Reconnect with friends and discover future research partners at networking events.

- Welcome Reception
- Student Reception
- Early Career Professionals Mixer
- Networking events, and/or Speed Networking events
- Women and Allies in Entomology Breakfast
- Alumni Mixers
- Tours to the Denver Botanic Gardens and Butterfly Pavilion
- Organized Meetings of many entomology-related organizations
- Volunteer opportunities
- Fun run and walk

RE-ENERGIZE

Inspiring presentations, entrepreneurial business competitions, and awards programs highlight the people and programs transforming the way we think and operate.

OPENING PLENARY—Dr. Joseph Graves Jr.'s research in the evolutionary genomics of adaptation has shaped our understanding of biological aging and bacterial responses to nanomaterials. He has also used his expertise as a scientist to examine the biological theories of race and racism in America.

2021 FOUNDERS' MEMORIAL LECTURE—

Dr. Vernard Lewis, emeritus cooperative extension specialist, will honor Dr. Margaret Collins, a legendary Black entomologist and civil rights advocate whose five-decade career earned her the nickname "Termite Lady."

ANTLION PIT COMPETITION—The entrepreneurial spirit comes to life in this competition to develop and present innovative ideas for entomology-related products and services.

AWARDS AND PRIZES—A variety of symposia and presentations provide insight into how the best found success.

STUDENT-SPECIFIC OPPORTUNITIES

- Entomology Games
- Awards and cash prizes
- Student Debates
- Student Reception
- Student club tables

Covid Safety

The safety and well-being of our members continues to be our top priority. ESA is partnering with the Colorado Convention Center (CCC) and the Hyatt Regency Denver to implement extra safety protocols. Since the Covid pandemic continues to evolve, the latest information can be found on our meeting website.
