

A Spectrum of Solutions for Social Good

About Us

A Spectrum of Solutions for Social Good

ContinuumCloud offers a spectrum of cloud-based software solutions intentionally designed to meet the unique needs of the behavioral health and human services industry.

These solutions include an EHR platform, powered by Welligent, and an HCM system, powered by DATIS HR Cloud. Through these offerings, we empower organizations to provide high-quality care and deliver on their mission.

About Us

HCM

The Employee Experience

Managing the entire employee lifecycle in a unified platform that encompasses all aspects of workforce management, including:

- Recruiting & Onboarding
- Position Control
- Talent Management
- Payroll & Timekeeping
- Benefits Administration
- Business Intelligence

EHR

The Client Experience

Supporting the entire continuum of care in a single platform with solutions from the front desk to the back office, including:

- Electronic Health Record
- Mobile Documentation & Scheduling
- Patient Portal
- HIPAA-Compliant Messaging
- Telehealth & Engagement
- Revenue Cycle & Reporting

HCM Software

Powered by **DATIS**

Recruiting & Onboarding

Identify, attract, hire, and onboard top talent with a seamless process for recruiting and new hire onboarding without multiple logins or duplicate data entry.

Talent Management

Manage training, performance, credentials, and professional development to maintain compliance and help employees grow within your organization.

Benefits Administration

Automated open enrollment that flows directly to payroll for accurate deductions, and configurable benefit plans and rules for various teams.

Position Control

Build and manage your workforce by position, independent from employees. Position Control enables you to have a clear view of your entire workforce.

Payroll & Timekeeping

Payroll doesn't have to be painful. Sit back and relax while we take the headaches out of timekeeping with automated shift differentials, secondary pay rates, labor allocations, and more.

Business Intelligence

With over 70 standard reports at your fingertips and a custom report writer that's easy to use, your days of piecing together data in spreadsheets are over.

“

HR is a very busy place with 1100 employees, and to be able to organize and document the employee life span in an efficient place that is easy to access and edit is a lifesaver!

”

HCM Review

EHR Software

Powered by Welligent

Welligent EHR

Comprehensive, cloud-based solution designed for behavioral health organizations providing a variety of programs and services.

Welligent Express

Mobile care made easier with secure, intuitive documentation and scheduling. Optimized for mobile – with or without WiFi.

Welligent Connect

A patient portal for better communication and outcomes with a secure central hub for clients and clinicians to collaborate on care.

Welligent Messenger & Chat

HIPAA-compliant secure messaging and virtual case conferences to coordinate care with external referral partners and internal teams.

Welligent Telehealth & Engagement

Increase client engagement with your care team and offer clients an opportunity to collaborate in their wellbeing with secure video conferencing, chat, and more.

Revenue Cycle & Reporting

Easily prepare data and design visual reports for real-time behavioral healthcare decisions. Access over 1200 commonly used, in-depth, self-service reports to get the data you need.

“

The solution is customizable and admission screens, clinical programs, and progress notes can be configured to meet each organization's unique documentation needs.

Who We Serve

Complex Is What We Do Best

We know that providing a continuum of care requires dynamic, multi-dimensional solutions. We specialize in empowering organizations that serve complex consumers with a variety of community services.

Managing multiple programs, funding sources, and locations? We can handle that. Have complicated compliance and reporting requirements? No problem. Our focus on the behavioral health and human services industry allows us to build tailored solutions for your unique organizational needs. Solutions that you simply can't get from other providers.

Have questions? **We have answers.**

If you'd like more information on how our solutions can help support your mission, let's get in touch. Contact us today to talk with an industry expert.
