Taylor & Francis eBooks

A WORLD OF KNOWLEDGE AND INFORMATION

The screenshot displays the Taylor & Francis eBooks website. At the top, the logo and 'an informa business' tagline are visible. Below this, a navigation bar includes a 'Login' link. The main header area features the text 'A world of knowledge and information' and a sub-header: 'Browse our vast collection of eBooks in science, technology, engineering, medical, humanities and social science which are led by a global network of editors and authors.' A search bar with the placeholder text 'Search for keywords, authors, titles, ISBN' is positioned below the header. The 'FEATURED' section highlights the book 'Extractive Metallurgy of Rare Earths' by Nagaiyar Krishnamurthy and Chiranjib K. Das. The featured book cover is shown, along with a description: 'New Edition Now Covers Recycling, Environmental Issues, and Analytical Determination. Employing four decades of experience in the rare metal and rare earths industry, the authors of Extractive Metallurgy...'. Below the featured book, four smaller book covers are displayed: 'Extractive Metallurgy...', 'The Routledge Han...', 'Introduction to Poly...', and 'The Birth of the Ath...'. The 'FEATURED COLLECTIONS' section at the bottom includes three categories: 'MATHnetBASE' (describing a collection of mathematics, biology, agriculture, finance, or engineering eBooks), 'CivilEngineeringnetBASE' (describing a collection of eBooks on practical applications in civil, structural, and geotechnical engineering), and 'PHYSICSnetBASE' (describing a collection of eBooks on astrophysics and quantum physics).

Search our vast collection of authoritative eBooks written by a world-renowned and award-winning network of editors and authors. Taylor & Francis eBooks is a single destination platform for eBooks, pulling together all of our content from Science, Technology, Engineering, Medical, Humanities and Social Sciences. Also, included within Taylor & Francis eBooks are our CRCnetBASE collections.

Taylor & Francis eBooks include a librarian admin area which allows quick and easy access to entitlements, full usage reporting, MARC and KBART records, licenses, IP ranges, and more.

Library users can access millions of pages of rich content from a full range of academic disciplines, from Archaeology to Veterinary Medicine. In addition, improved search and filtering, chapterization, APA format citations, and other features create an enhanced user experience; enabling the student or researcher to find the content they need faster.

FEATURES AND BENEFITS:

For Librarians

Access the **Librarian Dashboard** to manage all Taylor & Francis eBooks content quickly and easily from ONE admin area.

- » Use a single sign on and point of entry for Taylor & Francis eBooks
- » View, manage, and download entitlements with license information
- » Download COUNTER Release 4 (BR1, BR2, BR3) and Release 5 (TR, TR_B1, TR_B2, TR_B3, PR, PR_P1) reports
- » Order up to 50 eBooks using build your own (BYO) pricing
- » Request and download MARC and KBART records
- » Get email notifications on MARC record(s) requests and license update(s)
- » View and access usage and denial reports/trends over pre-defined and custom periods
- » View historic usage reports
- » View and manage institutional licenses
- » Manage Shibboleth and Open Athens credentials
- » Set up EZproxy allowing users to access content when they are off campus
- » Enable SUSHI feeds via Taylor & Francis customer support
- » Get answers to FAQs under the "Help & Contact" section on the homepage.

For Library users

- » Access Taylor & Francis titles on a single platform
- » Filter search results by collections, subject, publication date, imprint or year published
- » Filter search results by the content your institution has access to
- » Conduct full text search
- » Search using Boolean terms and queries
- » Perform contextual searches: search all featured collections or search within a single collection
- » Search and discover content at the book and chapter level – PDFs available for download
- » View detailed table of contents
- » Create citations in APA format
- » Browse by subject areas and collections
- » Highlight keywords or phrases to search the web for additional content
- » Download a list of the titles included in any Featured Collections
- » Obtain book and chapter abstracts in both search results and product pages

Today's Students Aren't Dreaming of a Sustainable Future. They're Working Out How to Make it Happen

Your students have grown up with Occupy, #MeToo, and Extinction Rebellion. With ethical veganism, eco fashion, and gender pay gap reviews. For them, a sustainable life isn't just a dream, it's how they expect to live. And many expect their university to help them create that life.

Sustainable Development Goals Online is a multimedia collection of academic resources that will help you integrate sustainability into your courses. It will help you enable your students to deliver the change they want to throughout their careers and lives.

CREATING A SUSTAINABLE FUTURE FOR US ALL

The UNs' 17 Sustainable Development Goals (SDGs) provide a call to action to create a sustainable future for all of us. They were adopted by all 193 world leaders who agreed to end all forms of poverty, fight inequalities, and tackle climate change.

That call to action is one that speaks to today's students, whether their concerns are around developing clean technology, reversing climate change, reducing the gender pay gap, or enabling developing nations to grow sustainably. And it's one that you can use as a framework for teaching about sustainability in a huge range of subjects.

NEW
for 2019

WHY SUSTAINABLE DEVELOPMENT GOALS ONLINE?

- » 96% of recent graduates have an expectation to be involved in sustainability in some way during their careers and 70% of respondents believe that sustainability should be covered by their university course (OIKOS survey of 1,800 university students worldwide, 2016)
- » SDGO is a large repository of broad, interdisciplinary content that can benefit a wide range of faculties and departments, from civil engineering to economics to the humanities
- » It has been created by Taylor & Francis in association with the United Nations' PRME division and guided by an international Advisory Board of academics, practitioners, policy-makers, those working in third sector, government, and NGO contexts
- » Helping your instructors and programme leaders to integrate multimedia resources into their curricula and meet the needs of today's digital-first students, this content includes not only book chapters and journal articles but videos, presentations, and a range of other Teaching & Learning materials
- » SDGO is part of Taylor & Francis eBooks, so you can administer the collection in the same interface as your other entitlements and so all content is DRM-free, Kbart compliant, and has downloadable MARC records available
- » As well as purchasing the whole collection – allowing you to meet the teaching and research needs of a broad range of departments and faculties – you can also create your own package based on individual goals, allowing you to purchase content relevant to specific faculties or courses.

Routledge Handbooks Online is an invaluable educational resource bringing together the world's leading scholars to provide a cutting-edge overview of classic and current research from Routledge, and CRC Press, in the Humanities, Social sciences, Education, Psychology, Engineering, and Built environment, while at the same time providing an authoritative guide to theory and method, the key sub-disciplines, and the primary debates of today. Every title within Routledge Handbooks Online is surrounded with meaningful metadata and abstracts at a chapter level, making it fully searchable and browsable, providing a functionality of greater value to the student and researcher.

Additionally, the third chapter of each handbook is available as a free download, so you can view sample content.

KEY FEATURES:

- » All titles are DRM-free
- » All content is available in HTML and PDF format
- » Providing over 50,000 chapters from over 1,800 volumes
- » Expansive coverage of 49 subject areas, now including Routledge and CRC Press content
- » The third chapter in each of our handbooks is freely available for you to view and download
- » All chapters are accompanied by an abstract and rich metadata that make searching and research more efficient and effective
- » Intuitive search tools enable users to find exactly the material they need across the Handbooks' multiple subject areas, with peer-reviewed content that ensures quality of research
- » Full text DOIs, OpenURL, and Usage Statistics to aid discoverability and ensure library patrons are accessing the materials they need - including COUNTER 4 usage statistics and denials data.

The screenshot shows the Routledge Handbooks Online website. At the top, there's a navigation bar with the Routledge logo, the text 'Routledge Handbooks Online', the tagline 'Cutting edge scholarship from Routledge and CRC Press', and a 'Sign in' link. Below the navigation bar is a search bar with the placeholder text 'Enter keywords, authors, DOI etc.' and a 'Search History' button. The main content area features a large image of an open book and a stack of books. Below this is a circular diagram with nodes representing various academic fields: Social Sciences, Education, Engineering and Built Environment, Humanities, Psychology, Science, and Middle East Studies. Further down, there are sections for 'Editor's picks' showing book covers, 'Freely Available Chapters' with chapter titles like 'Prehistory through language and archaeology', 'The Digital Consumer', 'The extraterritorial application of international human rights law on civil and political rights', 'Physical Activity: Feel-Good Effect', and 'The origins and practice of science on British television'. At the bottom, there are three boxes: 'Librarian resources' (Tools to help you evaluate, manage and promote your content), 'Authors & Editors' (Get Published. Get Read.), and 'What's New' (The latest content and features.). The footer contains copyright information for Informa UK Limited, an Informa Group Company, and the Taylor & Francis Group logo.

CHEMnetBASE is a collection of cutting-edge interactive chemistry databases and dictionaries that provide instant access to authoritative content. Researchers can perform exhaustive searches using a variety of criteria, including structure searching, can create tables, export data in several formats and much more.

Included in this noteworthy collection are 11 distinct products including the CRC Handbook of Chemistry and Physics, Combined Chemical Dictionary, Dictionary of Natural Products and much more.

Institutions and corporations can subscribe to individual databases within CHEMnetBASE or CHEMnetBASE in its entirety.

Recent enhancements include:

- » **One-Stop Search:** perform searches on chemical terms simultaneously across all databases within CHEMnetBASE.
- » **Chemical Text Search:** search by Name, Synonym, Molecular Formula, CAS Registry Number, InChI, InChI key, and/or SMILES.
- » **Chemical Structure Search:** draw a chemical structure using Marvin JS and then search by Exact Match or Substructure; import a structure file or paste in a SMILES, SMARTS or InChI string into the search box.
- » **Improved Transparency with Interface Redesign:** Easy to navigate and uncluttered home page, search tool, and results page. Users can readily see which products they have access to, reducing queries to librarians.

Key features:

- » **Modern responsive design:** use on tablets and mobile devices.
- » **New customization:** set up search fields, hit list columns and save as their default.
- » **Save searches:** create and save searches, customize hit list display.
- » **Improved entry display:** expand and contract compounds within an entry.

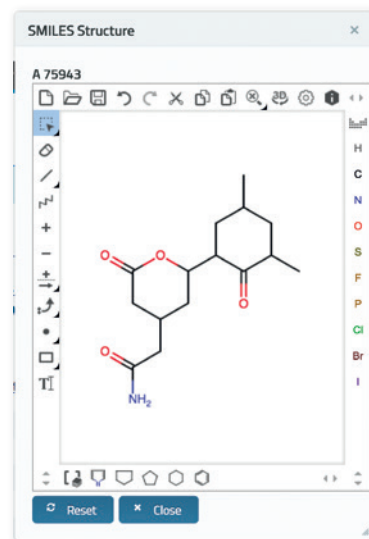

COMBINED CHEMICAL DICTIONARY PLUS (DVD version available as well)

Spanning the breadth of chemistry, **The Combined Chemical Dictionary Plus (CCD)** provides access to chemical, physical, and structural data on 670,000 compounds. You can search content using the intuitive and powerful Marvin JS and JChem search engine from ChemAxon™.

Compatible with Mac, PC, and Linux-based systems, allowing you to draw your own structure queries. The CCD Plus is updated twice a year and is made up of the following dictionaries:

- » Dictionary of Natural Products
- » Dictionary of Organic Compounds
- » Dictionary of Drugs
- » Dictionary of Inorganic and Organometallic Compounds
- » Dictionary of Commonly Cited Compounds
- » Dictionary of Marine Natural Products
- » Dictionary of Food Compounds

Additional dictionaries include:

Polymers: A Property Database

This database provides a single, first-stop reference invaluable to anyone involved in polymer science and technology.

Properties of Organic Compounds

Now with an entirely new interface this database contains entries on the most commonly sought organic compounds, featuring physical data and spectral data (UV, IR, MS, ¹H NMR and ¹³C NMR).

CRC HANDBOOK OF CHEMISTRY AND PHYSICS ONLINE

Save time and expand your resources with easy, flexible access to trusted chemical and physical data.

The Online Handbook: Interactive Time-Saving Tools and More Data!

- » Access expanded data and customize its display
- » Search, sort, and merge data with ease and accuracy

Extensive Search Capability

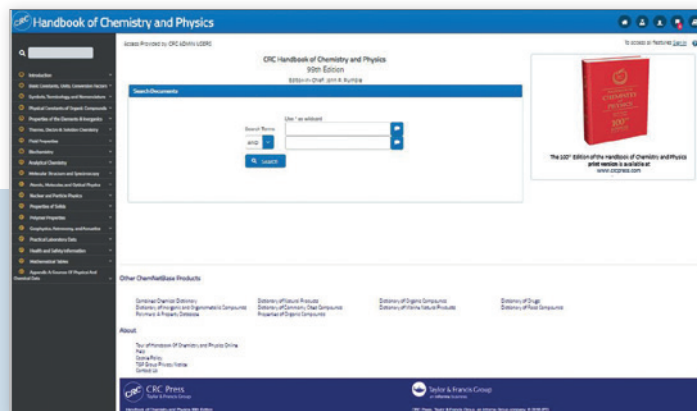

- » **Searching by Various Fields:** physical property, molecular formula, etc.
- » **View Chemical Entry:** see core chemical properties and link to tables in handbook
- » **Cross Table Searching:** displays everything about a specific compound
- » **Chemical Structure Searching:** use intuitive Marvin JS to draw a desired structure
- » **Interactive Tables:** customize the data in spreadsheet format

Expanded Content & Tables

- » Create individual workspaces and customized search screen
- » Access from any device – mobile, tablets, etc.
- » Graph search results and data tables
- » Export chemical structures and images
- » Additional information for entries
- » Expanded versions of print edition tables
- » Access to tables archived from earlier editions
- » Ability to export into Excel to filter and manipulate

The *Routledge Performance Archive* is a ground-breaking and constantly growing online collection of audio-visual material from past and present practitioners of performance. It delivers streamed video and audio footage – along with relevant critical commentary – direct to the lecture theatre and library.

The fully searchable and cross-referenced content is updated and added to every six months. It includes unique material from the Victoria & Albert Museum's National Video Archive of Performance Recordings, and specially commissioned essays by leading experts to accompany each video.

Routledge Performance Archive includes:

- » Interviews with key figures in theatre history and contemporary practice
- » Masterclasses with specialist actor trainers from around the world
- » Unique video footage direct from the legendary practitioners themselves
- » Excerpted and full-length contemporary productions
- » Documentaries previously unavailable to global audiences

2018 Modern Library Awards Platinum Winner

Awarded 'Outstanding Academic Resource' by CHOICE magazine:

"this Archive is a ground-breaking resource for sharing material developed in multiple theatrical contexts and traditions with academic/professional audiences. Summing Up: Highly recommended."

ROUTLEDGE HISTORICAL RESOURCES

www.routledgehistoricalresources.com

This collection of databases is a developing resource that gives patrons an interdisciplinary view of modern history. Bringing together primary source material, secondary source material, thematic essays and journal articles, each database focuses on a different aspect of the period. Between them they will cover topics relevant to history, literature, politics, economics, philosophy and more.

Rated as Highly Recommended by
CHOICE magazine for History of Feminism:

“Researchers interested in the historical development of feminism and those in women’s studies and related interdisciplinary programs will find the resource immensely valuable.”

Features of Routledge Historical Resources include:

- » COUNTER4-compliant usage reports for library account administrators
- » Full MARC21 records for each product
- » DOIs for each book chapter and journal article, along with rich metadata
- » Search functionality that allows users to query the resource with key terms and filter using a tiered taxonomy
- » Introductory videos featuring the academic editor for each resource, discussing the subject and the resource itself.

What’s new in the latest platform update?

- » Users can read footnotes/endnotes as they appear in the text by clicking on their superscript number. This allows the user to keep their place on the page when viewing content in their web browser as opposed to scrolling to the end of the page/chapter/book.
- » Users can now search by Set Title to find Primary Source Collections more easily.
- » Search results are now more finely filtered by relevancy so users have easier access to Primary Source Collections that have been made available online for the first time.

Academic Editors: Gilbert Faccarello and Heinz D. Kurz

History of Economic Thought brings together primary and secondary materials, including book chapters, thematic essays and journal articles, to aid the study of economic thought over the period 1700-1914, including:

- » More than 7,000 chapters of primary source material, many available here in electronic format for the first time
- » More than 2,000 chapters of secondary source book content
- » 200 articles from Taylor & Francis journals
- » 18 newly commissioned essays from experts in the field
- » An introductory video to the subject and resource from academic editor, Heinz D. Kurz
- » Enlightening introductions to the 12 key subject areas and 8 Currents of Thought

This content can be browsed by Subject, Current of Thought, Notable Figure, Period and Content Type.

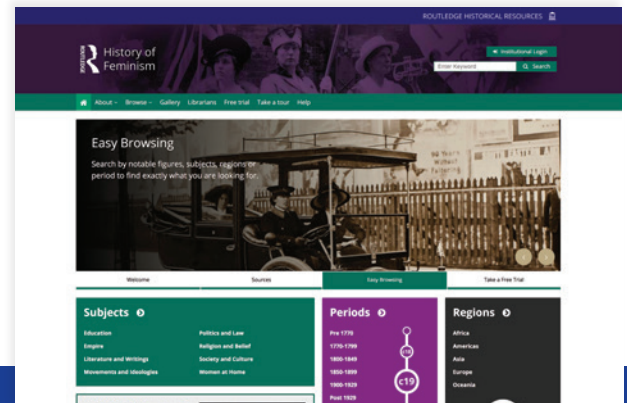

Academic Editor: Ann Heilmann

History of Feminism brings together primary and secondary materials to aid the study of the long nineteenth century of feminism (1776-1928). The collection includes:

- » More than 6,000 chapters of primary source material, many available in electronic format for the first time. These primary source collections contain original source materials from Pickering & Chatto, acquired by Taylor & Francis in 2015, and the Routledge Major Works programme
- » More than 1,000 chapters of secondary book content
- » Over 100 journal articles from a range of Taylor & Francis journals
- » 16 newly commissioned thematic essays written by experts in the field
- » Subject introductions to the 8 key subject areas

This content can be browsed by Subject, Region, Period and People and is complemented by an image gallery.

– CHOICE Review

Routledge Encyclopedia of Modernism launched in May 2016 as the largest and most comprehensive online resource on Modernism.

With over 1,600 articles written by experts in the field, supported by over 100 images, and biannual updates this resource provides a comprehensive and interdisciplinary view of Modernism. Articles are written with students and researchers in mind, with an overview essay introducing each subject.

Key features include:

- » Every article is cross referenced and hyperlinked making further research as simple as possible
- » Article summaries found at the beginning of entry are available without restriction
- » Articles can be cited at the click of a button available on every entry
- » Once logged in, articles can be saved to your personal profile allowing you to find your favourite articles with ease
- » 25 overview essays provide introductions to the most studied areas of modernism

Routledge Encyclopedia of Philosophy contains over 2,700 articles, with quarterly content updates ensuring this resource remains the most updated online resource in Philosophy.

Covering an unparalleled breadth and diversity of subject matter in Philosophy, the encyclopedia provides the ideal starting point into research to this subject area. General editor Tim Crane and the editorial board of over 30 subject editors work hard to ensure that content is accessible, writing articles with the undergraduate student in mind. This makes Routledge Encyclopedia of Philosophy the perfect philosophy resource for any university library.

Recent content updates have included content on epistemology, twentieth century philosophers, and philosophy of mind, with topics for future updates including areas growing in popularity, such as political philosophy.

Articles which have been updated, and so have multiple versions, offer the whole of the version 1 available for free. This means librarians can assess the content before committing to a trial.

The screenshot displays the homepage of the Routledge Encyclopedia of Philosophy (REP). At the top, the Routledge logo and site title are visible, along with a search bar and navigation links. A large banner image shows a stack of books. Below the banner, a 'Welcome' message states: 'Give your students access to the largest and most comprehensive online philosophy resource available. Request a free trial today.' The main navigation bar includes links for 'About', 'Browse', 'What's new', 'Librarians', 'Free trial', and 'Help'. The content area is organized into several sections:

- Topics:** A grid of subject areas including Aesthetics, Applied ethics, Epistemology, Ethics, Feminist philosophy, Glossary of logical and mathematical terms, Logic, Metaethics, Metaphysics, Phenomenology, Philosophy of language, Philosophy of law, Philosophy of mathematics, Philosophy of mind and psychology, Philosophy of religion, Philosophy of science, Philosophy of social science, and Political philosophy.
- Periods:** A list of historical periods from Ancient to Twentieth century.
- Regions:** A list of geographical regions including African, Indian and Tibetan, Japanese, Chinese, Korean, Latin American, and Philosophy by country or region.
- Religions:** A list of religious traditions including Buddhist philosophy, Christian philosophy, Hindu philosophy, Islamic philosophy, Jewish philosophy, and Slavonic.

Below these sections are three columns of featured content:

- MOST READ:** Lists popular articles such as 'Descartes, René (1596-1650)' by Garber, Daniel, and 'Metaphysics' by Craig, Edward.
- LATEST ARTICLES:** Lists recently added articles such as 'Climate change justice' by Boran, Iñaki, Katz, Corey, and 'Collective intentionality' by Tollefson, Deborah, Friedlander, Christina.
- FREE ARTICLES:** Lists articles available at no cost, such as 'Intentionality' by Crane, Tim, and 'Psychology, theories of' by Wellmer, A.E.

At the bottom, there are three more sections:

- Highlights:** Features a '2017' anniversary highlight for the centenary of the death of Franz Brentano (1838-1917), noting that five articles have been selected for free access.
- Playlists:** Offers guest-edited selections of articles on various themes, including 'Tim Crane's Introduction to Philosophy' and 'Louise Richardson's guide to the many philosophical aspects of Emotions'.
- News:** Announces recent content updates, including a new article on '20th century philosophy: philosophy of mind and psychology, and epistemology'.

ENGLISH HISTORICAL DOCUMENTS

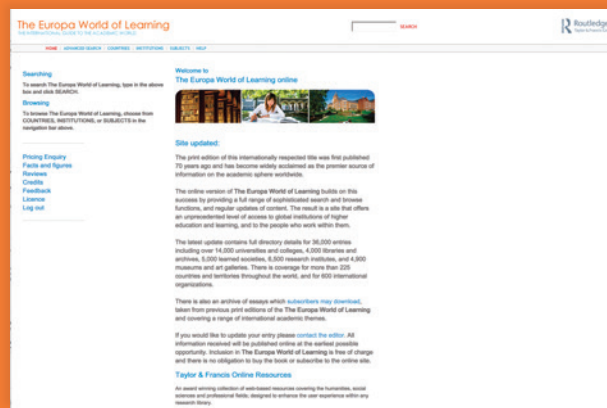

www.englishhistoricaldocuments.com

Providing access to over 5,500 primary source documents, English Historical Documents is an essential resource for institutions where British history is taught or researched. Covering British history between 500AD and 1914, this archive contains cabinet proceedings, letters, military dispatches, personal letters, and more. Searchable by topic or by time period, content can also be filtered by date, person and place.

‘Perhaps the most important historical undertaking of our age... one of the most valuable historical works ever produced.’ – *Times Literary Supplement*

The Europa World of Learning

THE INTERNATIONAL GUIDE TO THE ACADEMIC WORLD

www.worldoflearning.com

A guide to the world of higher education, listing global institutions of higher education and learning, and the people who work within them.

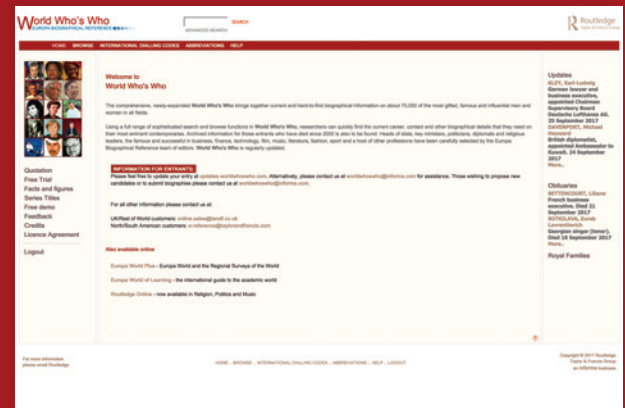

The online version of **The Europa World of Learning** provides a full range of sophisticated search and browse functions, and regular updates of content. The result is a site that offers an unprecedented level of access to global institutions of higher education and learning, and to the people who work within them.

“... current, well indexed, and well edited – a valuable and unique reference classic. An online version complements the print edition and offers browse functions and frequent updates. Summing Up: Highly recommended.” – *Choice Reviews*

World Who's Who
EUROPA BIOGRAPHICAL REFERENCE

www.europaworld.com

www.worldwhoswho.com

An interactive library offering detailed surveys with information on the latest economic, political and statistical information for 250 countries and territories.

★★★★³/₄ [out of five stars]

“Perhaps the most respected reference work on world affairs ... The online edition adds value by incorporating more frequent updates than the print edition and by offering several simple yet powerful search features ... Easy and intuitive ... The ‘print and online bundle’ is a great deal.”

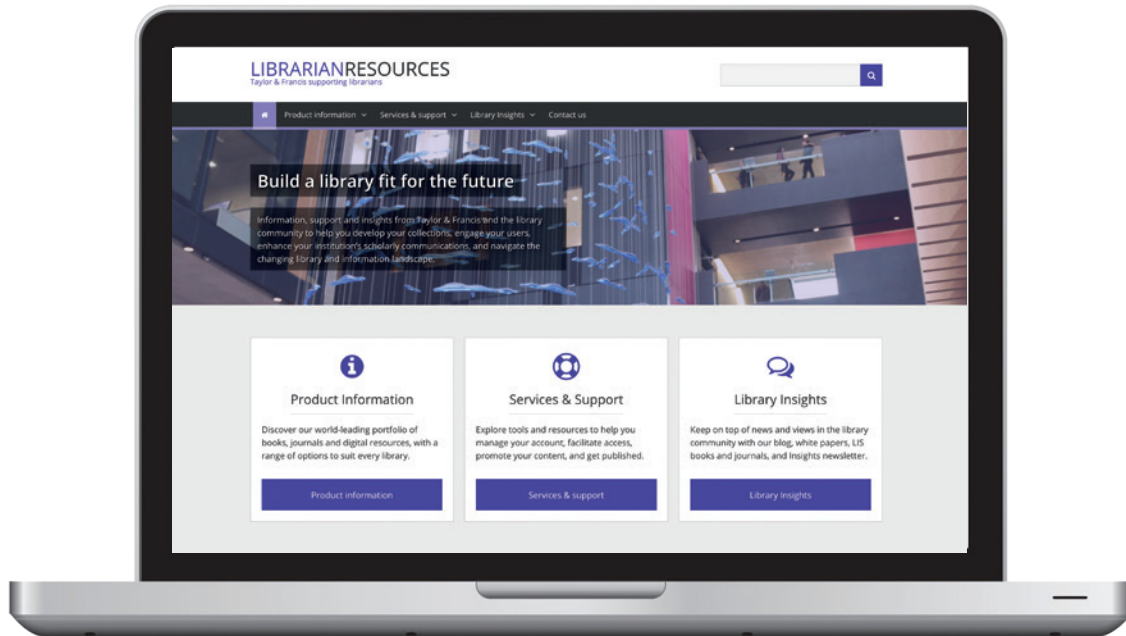

– *The Charleston Advisor*

The comprehensive, newly-expanded *World Who's Who* brings together current and hard-to-find biographical information on more than 60,000 of the most gifted, famous and influential men and women in all fields.

Entries include nationality, date and place of birth, education, marital and family details, past career and current position, honours and awards, publications, artistic achievements, leisure interests, and contact details. Replaces numerous single-nation directories, saving you both time and money in your research.
