

Transparent Language® Online for Libraries

Transform your community into global citizens.

Empower learners to explore a new language at the library, at home, or on the go using any Internet-connected device. **Available in 110+ languages, including ESL**, learners have the flexibility they need to learn a new language anytime, anywhere.

Features users love

in the most complete language-learning system for libraries

- ✓ **110+ languages (and growing!):**
From Afrikaans to Zulu, the number of languages available to learners is constantly growing.
- ✓ **Alphabet lessons:**
You can't learn to read or write if you don't know the alphabet. Get learners started on the right foot with our Alphabet course.
- ✓ **Flexible learning path:**
Learners can follow our plan or explore their own. The choice is theirs.
- ✓ **Extensive English collection:**
With English materials for speakers of 30+ languages, an intermediate-level immersion course, and more, we have the tools for every English learner.
- ✓ **Core skill-building activities:**
Give your learners the most robust program that builds all four core skills; listening, speaking, reading, and writing.
- ✓ **Typing activities:**
Never typed in a foreign language before? No problem! Beginners start with Easy Typing to input foreign characters. Intermediate learners can advance to type with the included fully-mapped native keyboard.
- ✓ **Enhanced compatibility:**
Optimized for touchscreen use on Android™ tablets and iPads, Transparent Language Online works on virtually any Internet-connected device or computer.

Transparent Language® Online for Libraries

Features for administrators

- ✓ **No extra media:**
All materials are delivered online and are compatible with common web-browsers and operating systems, so there's no need for CDs, flash drives, or DVDs.
- ✓ **Unlimited access:**
We don't limit the number of concurrent users and every learner can access the program as much as they want during the entire subscription period.
- ✓ **Usage tracking:**
Real-time, continuously-updated usage reports help you measure ROI through an administrative portal that is accessible 24 hours a day, 7 days a week.
- ✓ **Quick and easy setup:**
With numerous authentication methods to choose from, your library can be up and running in no time.
- ✓ **Free promotional materials:**
We've got what you need to spread the word, from blog posts to posters and beyond.
- ✓ **Staff training and support:**
From webinars to technical support questions, we're here to help! Just give us a call or send us an email.

Solutions for users at every library

Academic libraries

Transparent Language Online contains full courses, dozens of supplemental resources, and over 110+ languages*, allowing students to build and maintain language skills on their own. With tablet support and a supplemental mobile app for smartphones and similar devices, students can continue to learn outside the classroom, anytime, anywhere.

*content varies by language

Public libraries

With over 110+ languages to choose from, mobile apps, and tablet support, Transparent Language Online is more than just an online course. Learners can utilize the program in the library, at home, at work, or wherever they have an Internet connection.
