

KidSpeak™ Online for Libraries

The fun and easy way for children to learn a foreign language

Combining animations with over 40 engaging, interactive activities, puzzles, and songs, KidSpeak™ makes learning a second language easy for kids of all ages. With KidSpeak, children build a solid foreign language foundation using the successful immersion approach preferred for young children. Each language is hosted by a fun cartoon “friend” and his or her playful pet, using only the language being taught.

With KidSpeak, children will learn these important language skills:

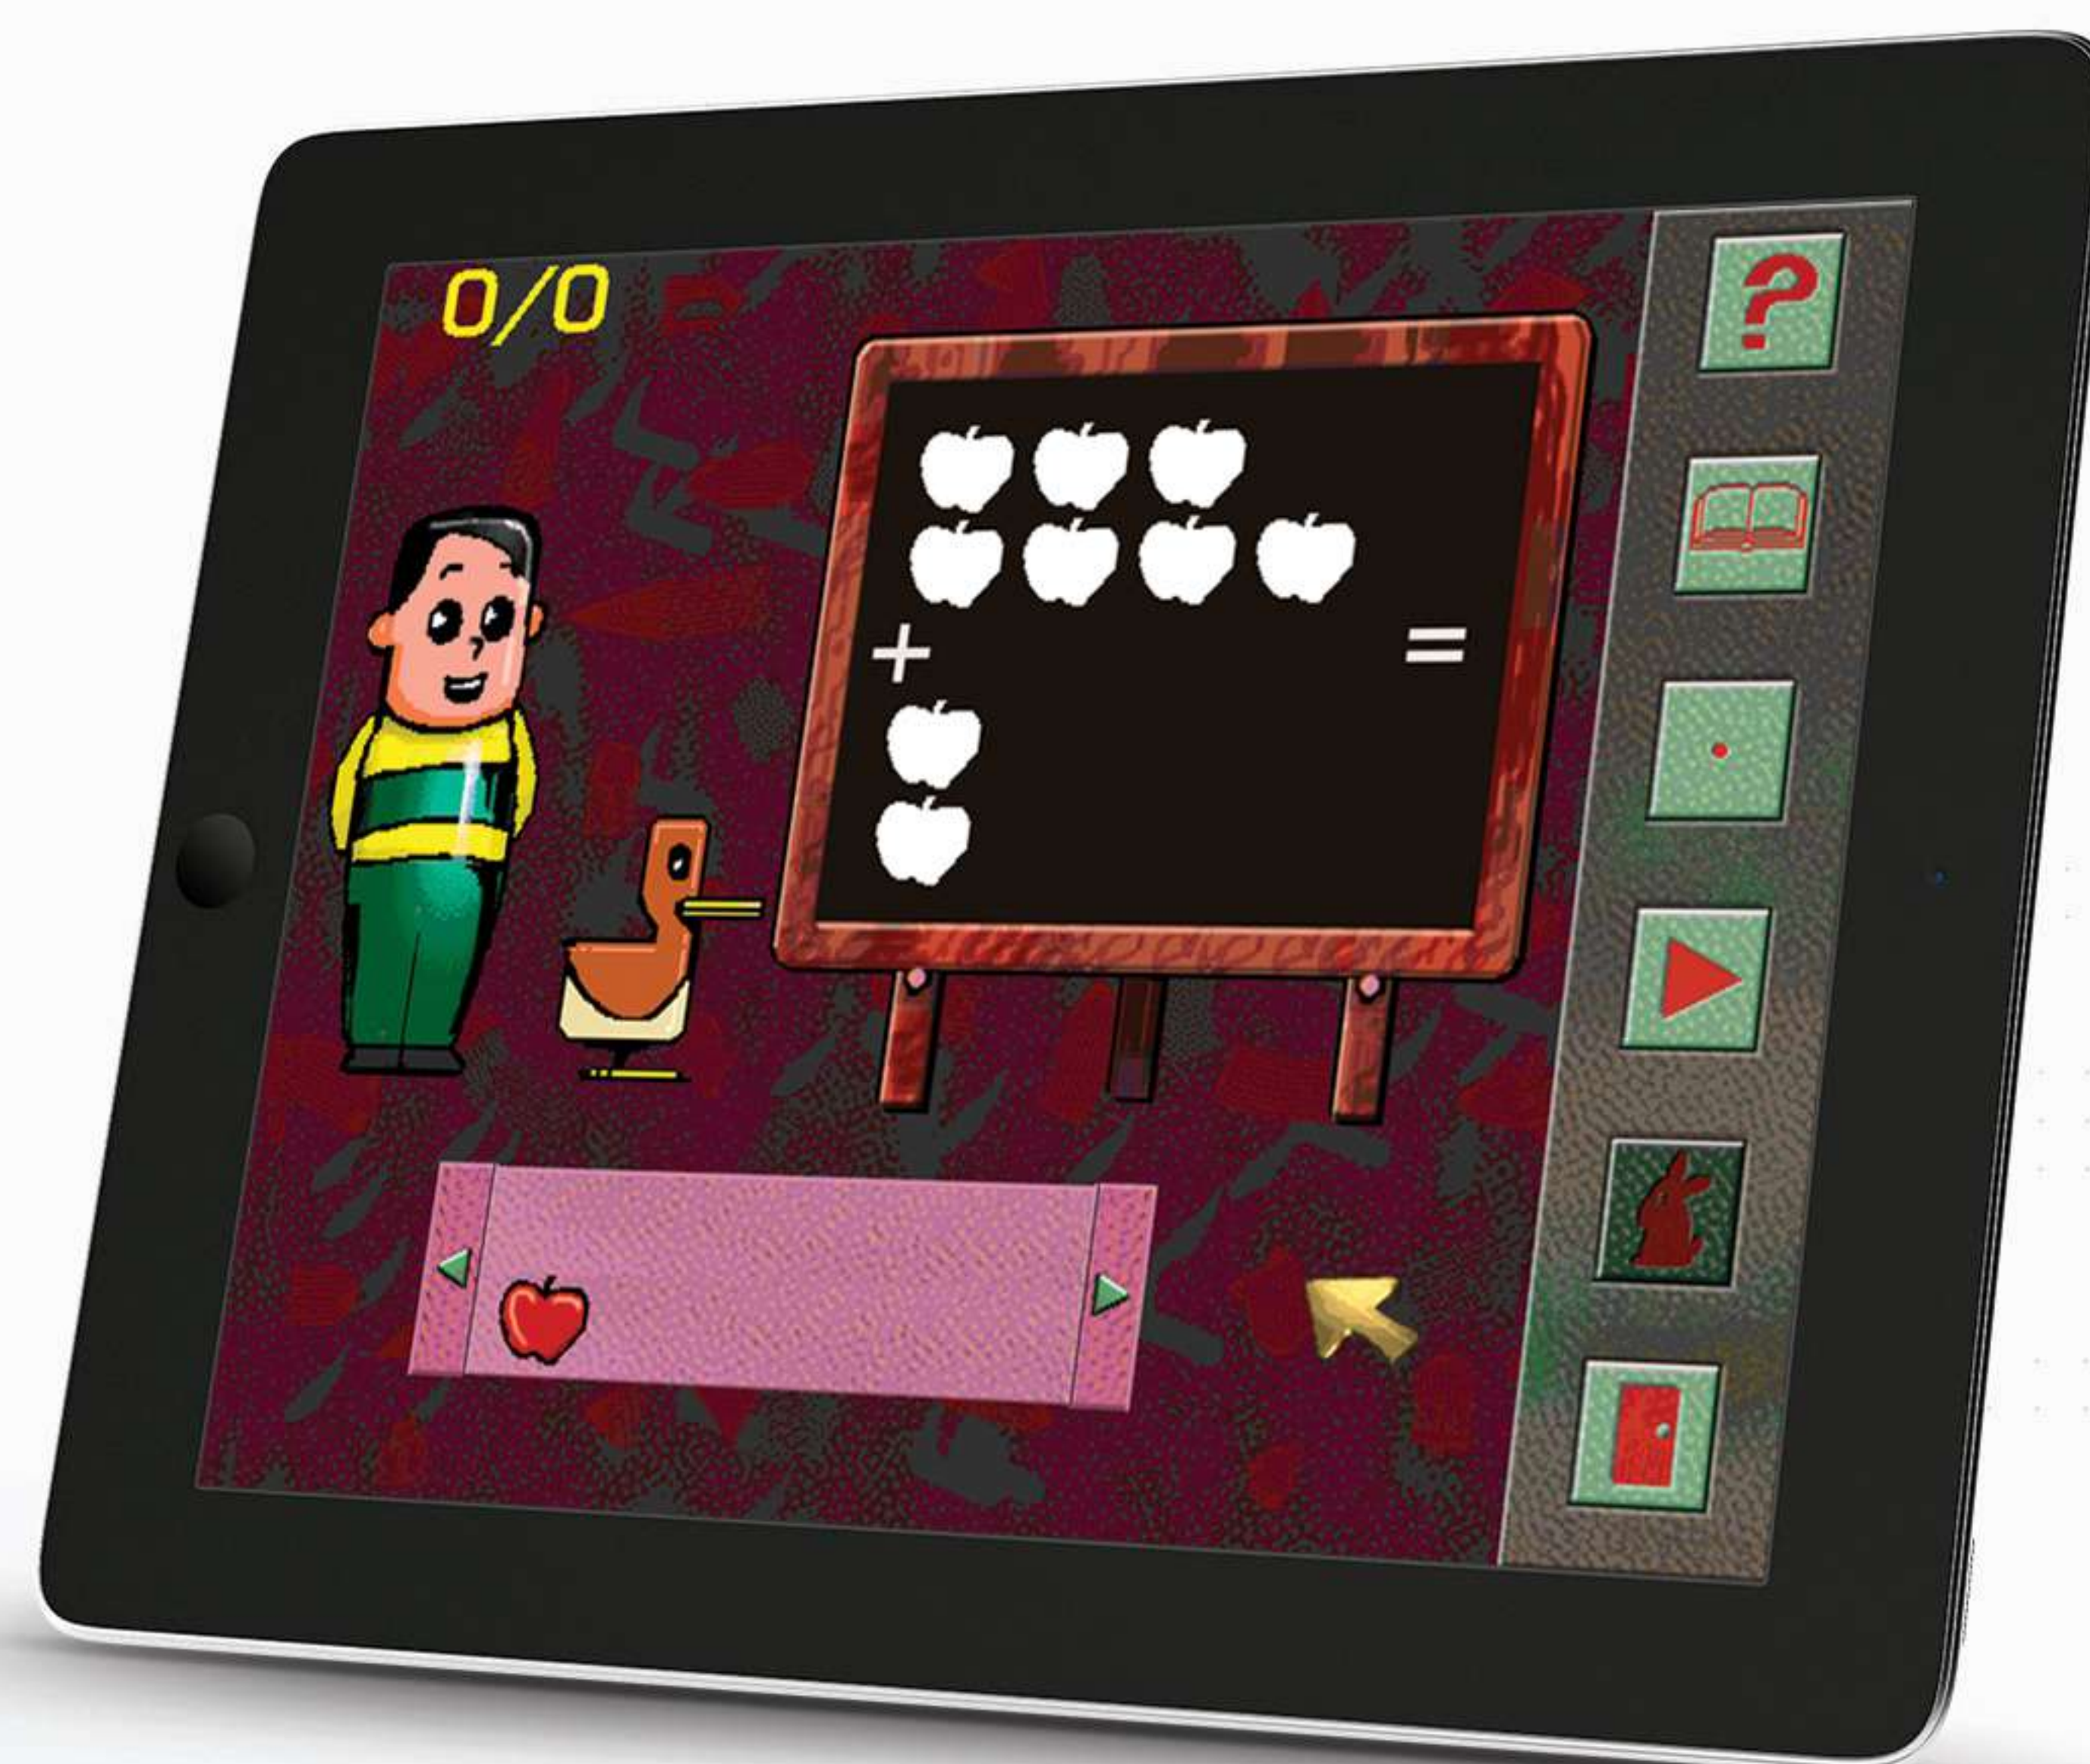

- | Alphabet and word recognition
- | Understanding simple sentences
- | Using plural and singular
- | Distinguishing between words that look and sound similar
- | Simple addition and subtraction
- | Telling the time
- | Number recognition (matching numbers to written words)
- | Correct pronunciation

Designed by leading educators for children ages 6 and up, KidSpeak contains more than 700 words and expressions per language. Best of all, with 3 levels of difficulty and a variety of learning exercises, children will be on their way to learning a new language in no time.

Topics include:

Greetings	Weather
Ages	School supplies
Dates and times	Everyday items
Travel	Body parts
Sports	Animal names and sounds
Colors	Fruits and vegetables
Clothing	Much more
