**GREAT CONTACTLESS SOLUTION WITH
NEW PROGRAMMABLE QUARANTINE FEATURE
TOUCHLESS OPTION & ANTI-MICROBIAL SCREENS**

FEATURES

- NEW automatic programmable “quarantine” feature places returned materials on hold for set time and then frees them for patron use without staff intervention.
- Supports touchless patron use, where the patron simply scans their card and the device automatically processes their items without requiring further interaction
- ANTIMICROBIAL Touch screen monitor for browsing
- High precision industrial strength robotic design and construction
- Bulk load feature allows staff to insert CD’s/DVD’s with minimal patron disruption
- Complete SIP2 integration with your ILS included
- Shock resistant structure
- Fully customized graphics on exterior
- CD/DVD/GAMES/AUDIO BOOKS capacity of up to 750, 1500, 2250 or 3000
- Discs contained in custom slim-line cases which are included with purchase
