INTELLIGENT LOCKERS SYSTEM

Expand your system at any time!

Modular locker towers, each with 8 lockers, can be expanded up to as many as 32 lockers, with a single control tower.

Indoor and outdoor!

Intelligent lockers combined with optional weather-protection shelter are the answer for outdoor locations, enabling patrons to pick up their holds regardless of time or weather.

NEW!

Intelligent Lockers System

Intelligent and convenient solution to extend your library's reach to under-served areas, whether near or far from your building. Patrons can pick up holds at a remote locations with their library card 24/7. Lockers help to INCREASE LIBRARY CIRCULATION and allow libraries to meet Patrons' needs!

Seamless Integration with ILS!

Our unique proprietary software fully integrates the lockers with the library ILS, making it easy for the librarian to select and load lockers. Also provides actual pickup times to start the loan processes,and provides a patron receipt with return date, etc.

Security

Heavy military-grade steel construction, electronic locks with heavy-duty secure locking mechanisms, security camera and library card identification for maximum protection from theft.
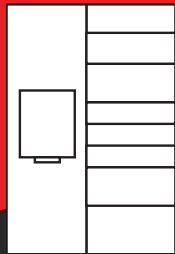

Different compartments sizes

All types of materials fit in the lockers. Several books, laptops, tablets, optical discs or just a single item - all can be easily placed in a suitable size locker.
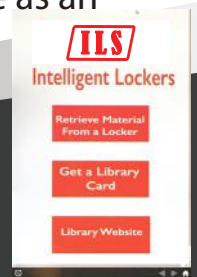

small - H 4" W 17"
medium - H 7" W 17"
large - H 17.25" W 17"

Easy to use for all

ILS Locker Systems are ADA compliant, and intuitive and very easy to use for all. Custom designed "TouchPac" touch-pad monitor is also user friendly and intuitive. Not only instructs patrons to scan their library cards for retrieval but also can be designed to provide access to your library's OPAC and other sites.

When the "Hotspot" option is added, Patrons can use the monitor for browsing your available E-Books and download selected titles onto their own tablet. The "TouchPac" is also available as an independent device.

Library Website

More than Lockers!

The ILS Intelligent Locker Systems are more than just lockers. They can easily be upgraded to automate these important additional tasks:
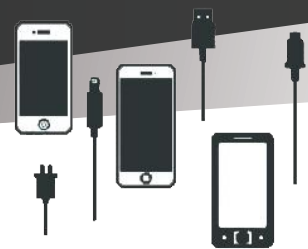

Payment Module

Additional payment module enables paying library fees

E-book download

Wi-fi "HotSpot" allows patrons to browse the library's E-Book offerings, and download them onto their personal tablet, smartphone or E-Reader

Charging

Optional device chargers can be installed in the lockers to ensure that Laptops, tablets, and E-Readers are not only easy to loan, but also keeps the devices always charged.

Convenient returns

Custom Design

RTI Intelligent Lockers System (Locker systems) not only allows Patrons to retrive books, laptops or tablets, apply for the library card, pay fees and browse the OPAC. Our device is also a convenient way to return borrowed items to the library when a custom book drop is added!
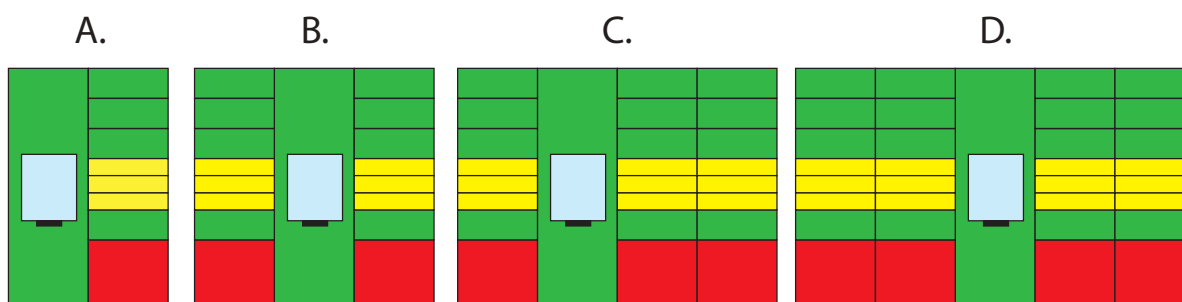

Make your locker system stand out. Attract more patrons and boost activity. Choose a custom color, add your library's logo or other message. Ask about our Custom design services.!
