SATISFACTION GUARANTEE

Helping you do the best for the children in your care is our goal. If you are not satisfied with your purchase, you may return it, in salable condition, within 30 days after receipt of order. Please call 888/227-1770 or 630/626-6000 (outside the United States and Canada) for return authorization and details. Shipping and handling charges are nonrefundable.

All pricing and specifications in this catalog are subject to change without notice.

American Academy of Pediatrics

DEDICATED TO THE HEALTH OF ALL CHILDREN®

Now more than ever, your patients and their families need you. They are looking to you to provide the evidence-based, reliable information that they need to make informed decisions.

And for more than 90 years, the AAP has been here for you with the tools and resources you need to enhance your knowledge base and ultimately improve patient care.

With trusted resources like the ***Red Book: 2021 Report of the Committee on Infectious Diseases, 32nd Edition*** (page 8), you'll find the best guidance on pediatric infectious disease prevention, management, and control. Members can request one print copy and simply pay for shipping and handling.

Our popular lineup of **2022 coding products** (pages 4–5) ensure you have the tools necessary to optimize your coding and maximize your payment.

This fall, we also have an incredible lineup of **educational events** that will provide you with the latest research and the trusted scientific content that you value—Check out page 30 for a complete lineup of opportunities.

Parents are especially looking to you as they help their children get back on track. You can help when you recommend books backed by the expertise of our member pediatricians. Our latest, ***Building Happier Kids: Stress-busting Tools for Parents*** (page 39), offers a pediatrician-mom's guidance on practical ways to reset, including guidance on eating habits, screen time, and more.

Each and every day, we strive to improve your experience to ensure that the tools and resources you need are available and easily accessible when you need them. This fall, look forward to all of your trusted AAP resources—including Journals, News, Point-of-Care Solutions, and Books—moving to one unified site—

AAP Publications—which will save you time and provide more exposure to the content you need to make the best available decisions for your patients. See page 27 for details.

We are here for you—working alongside you to improve the lives of children around the world.

Pediatric Care Online— instant access to the best resources in pediatrics because your patients deserve the best care

Pediatric ICD-10-CM 2022

A Manual for Provider-Based Coding, 7th Edition

For the pediatric provider, coder, and biller, here's the most helpful and easy-to-use manual on ICD-10-CM yet. Featuring a laser-sharp pediatric focus, it provides codes and guidelines in a simplified yet familiar format.

This important guide condenses the vast ICD-10-CM code set into only pediatric-centered guidelines and codes. It includes guidelines directly at the chapter and code levels, helping ensure that coders will always use the right codes in the right situation. Tabular, indexed navigation helps you find needed items fast.

Key features of this edition include

- Updated for the October 1, 2021, release of ICD-10-CM codes
- New codes include depression, acute flaccid myelitis, cough (expanded), pediatric expiratory disorder, gene therapy, and many more
- Integrated codes and guidelines
- Codes representing social determinants of health
- Pediatric-focused and provider-based coding guidance
- Updated External Causes of Injuries table/index
- Updated Table of Drugs and Chemicals

Call on top-rated telephone triage practice resources from Dr Barton D. Schmitt!

AAP BEST SELLER!

Pediatric Telephone Protocols

Office Version, 17th Edition

Barton D. Schmitt, MD, FAAP

Telehealth and telephone care serve as important tools to connect with patients and families, especially when we are practicing physical distancing. This comprehensive telehealth resource is a must-have for thousands of practices and call centers nationwide.

From telehealth pioneer Barton D. Schmitt, MD, FAAP, this award-winning office essential efficiently steps triagers through more than **140** decision support protocols spanning **98%** of today's most common complaints.

Key updates in this edition

- Completely updated protocols, references, and resources
- New protocol—COVID-19, Diagnosed or Suspected
- Expanded virtual visit content
- Medication Questions

Additional benefits you can rely on include

- Highlighted assessment questions that help you quickly evaluate patient problems and select the appropriate disposition: 911 call, ED referral, office visit or video visit, or home care
- Parent-reassuring home care instructions
- Medication questions, dosages, and recommendations
- Find-it-fast index that helps quickly zero in on caller concerns

RED BOOK®

2021–2024
Report of the Committee
on Infectious Diseases

32nd Edition

American Academy of Pediatrics

New 32nd edition—
now available!

DOODY'S CORE TITLE

Red Book®

2021–2024 Report of the Committee on Infectious Diseases,
32nd Edition

Editor: David W. Kimberlin, MD, FAAP

Associate Editors: Elizabeth D. Barnett, MD, FAAP; Ruth Lynfield, MD, FAAP;
and Mark H. Sawyer, MD, FAAP

“Refer to the *Red Book*.” That’s been the watchword for generations of healthcare professionals seeking trustworthy guidance on pediatric infectious disease prevention, management, and control. Now the 32nd edition continues this tradition of excellence with the latest clinical guidance on the manifestations, etiology, epidemiology, diagnosis, and treatment of more than 200 childhood infectious diseases.

The 32nd edition provides evidence-based guidance on pediatric infections and vaccinations based on the recommendations of the committee as well as the combined

expertise of the CDC, the FDA, and hundreds of physician contributors.

Red Book is an indispensable reference for pediatricians and pediatric infectious disease specialists and is useful for family medicine and emergency medicine physicians, as well. Public health and school health professionals, medical residents, and students also will find it a high-yield source of pediatric infectious disease and vaccine information.

Managing Mental Health Concerns in Pediatrics

A Clinical Support Chart

Editor: Jane Meschan Foy, MD, FAAP

This new point-of-care clinical support chart helps pediatric health care professionals—both generalists and subspecialists—respond to the mental health needs they uncover in their everyday practice. It discusses positive results on psychosocial screenings, parental concerns, symptoms, impaired functioning, exposure to trauma, and social adversities.

It also highlights brief, evidence-based “transdiagnostic” interventions that efficiently address these needs in pediatric settings.

Topics include

- Positive results on routine psychosocial tests
- Adverse (traumatic) childhood experiences
- Strategies to reinforce strengths and promote emotional health within families
- Care of children with common mental health symptoms
- Anxiety and trauma-related distress
- And more

Promoting Mental Health in Children and Adolescents

Primary Care Practice and Advocacy

Editor: Jane Meschan Foy, MD, FAAP

This resource guides pediatric clinicians with a framework for addressing pediatric mental health problems in the primary care practice. Handy surveillance and screening tools help identify early signs and symptoms of mental disorders and provide evidence-based interventions to care for children and adolescents.

Childhood Trauma & Resilience

A Practical Guide

Heather C. Forkey, MD, FAAP; Jessica L. Griffin, PsyD; and Moira Szilagyi, MD, PhD, FAAP

With this new practical guide, pediatricians and other child health professionals will learn to identify, evaluate, and treat children and families affected by trauma and adversity when they present at the office. In addition to instruction for acute, hands-on care, the cohesive approach offered in this guide lays out a framework and concrete steps to transform practices into ones that are trauma sensitive and can provide the best, most impactful care to all patients. *Childhood Trauma & Resilience* includes mnemonics, charts, tables, and numerous case studies to reinforce learning, as well as timely information on physician burnout and secondary traumatic stress.

Thinking Developmentally

Nurturing Wellness in Childhood to Promote Lifelong Health

Andrew S. Garner, MD, PhD, FAAP, and Robert A. Saul, MD, FAAP, FACMG

Thinking Developmentally presents a clinical framework for understanding the impact of toxic stress and both adverse and affiliative childhood experiences on development. It makes a compelling case that many diseases of adulthood are not adult onset but rather adult manifest, based on genetic and epigenetic consequences from early childhood experiences. Drs Garner and Saul offer suggestions for applying developmental science to help bring about healthy children, nurturing families, and caring communities.

of 2nd Edition

Mental Health Strategies for Pediatric Care

Susan G. Forman, PhD; Jeffrey D. Shahidullah, PhD; Cody Hostutler, PhD; Cori Green, MD, MS, FAAP; and Rebecca Baum, MD, FAAP

This guide helps primary care pediatricians, family doctors, nurse practitioners, and other professionals identify, treat, and prevent mental health problems as well as promote good mental health in their patients. The authors come from different medical specialties but emphasize common factors and elements in approaching mental health care in the primary practice setting.

Clinicians will gain insight into effective methods for helping patients and families share mental health concerns, learn about mental health issues, and develop positive attitudes about seeking treatment from specialty providers. They will also learn how to more effectively deal with issues that are below the level of a diagnosable disorder and use early, first-line therapeutic strategies for common mental health disorders.

Addressing Mental Health Concerns in Pediatrics

A Practical Resource Toolkit for Clinicians, 2nd Edition

This toolkit is designed to empower pediatric care providers to ready their practice for delivering comprehensive mental health care. The second edition delivers a streamlined collection of essential tools most relevant to pediatric practice, all available in a new online format.

This toolkit aligns with the all-new AAP “Mental Health Competencies for Pediatric Practice,” outlining a process for care. Succinct clinical tools provide step-by-step decision support for assessing and caring for children, covering the most common mental health topics, including

- Anxiety and Trauma-Related Distress
- Depressive Symptoms
- Disruptive Behavior and Aggression
- Emotional or behavioral disturbances in children younger than 5 years
- Family Dysfunction
- Learning Difficulties
- Substance use
- Suicidality and Trauma

Berkowitz's Pediatrics

A Primary Care Approach, 6th Edition

Editor: Carol D. Berkowitz, MD, FAAP

Edited by a leading primary care authority, this edition contains more than 155 (**including 5 brand-new**) clinical chapters that review pertinent epidemiology and pathophysiology and then give concise guidelines on what symptoms to look for, what alternative diagnoses to consider, what tests to order, and how to treat your patient.

New in the sixth edition

- Five new chapters, including Health Systems Science, Social Determinants of Health: Principles, and Adverse Childhood Experiences: Trauma-Informed Care.
- Student worksheets corresponding to each chapter's case study questions are online in a user-friendly format so they can be completed to prepare for discussions.
- Case study questions have been enhanced and resources have been revised.

This is an ideal reference for pediatricians, family physicians, medical students, residents, residency program directors, physician assistants, pediatric nurse practitioners, and nurses and perfect for use in continuity clinics.

Communicating Visually in Pediatrics

A Step-by-Step Tool for Patients and Caregivers

Alan I. Rosenblatt, MD, FAAP, and Danielle Fleckenstein, BS, CCLS

This spiral-bound visual communication aid is designed to help pediatricians and others who work in medical settings with children who are nonverbal, including toddlers; children with conditions such

as autism, cerebral palsy, language disorders, intellectual disabilities, or oral-motor apraxia; or children and caregivers who do not speak English. Interactive use of this resource will improve communication, reduce fear and anxiety, and boost patients' understanding and participation in the medical visit.

Nearly 400 easy-to-understand, full-color images depict common medical procedures, from bandaging to vaccine administration, as well as important patient-provider communication, including describing symptoms or post-visit instructions. Each image is captioned in both English and Spanish for maximum in-office utility, and the pages are fully wipeable for simple disinfecting after each patient.

AAP BEST SELLER!

Pediatric Dermatology

A Quick Reference Guide, 4th Edition

AAP Section on Dermatology
Editors: Anthony J. Mancini, MD, FAAP, FAAD, and
Daniel P. Krowchuk, MD, FAAP

PEDIATRIC DERMATOLOGY

Distribution of Lesions

- Certain disorders are characterized by unique patterns of lesion distribution. For example:
- Atopic dermatitis in children and adolescents typically involves the antecubital or popliteal fossae.
 - Subacute dermatitis in adolescents commonly involves not only the scalp but also the eyebrows and nasolabial folds.
 - Lesions of psoriasis are often seen in areas that are traumatized, such as the extensor surfaces of the elbows and knees.
 - Acne is limited to the face, back, shoulders, and chest, sites of the highest concentrations of pilosebaceous follicles.

Arrangement of Lesions

- The arrangement of lesions also may provide a clue to diagnosis. Some examples include:
- Linear contact dermatitis due to plants (eg, poison ivy) (Figure 1.12).
 - Linear eczema, and nummulara pigmentosa may also occur in epidermal, dermal, and subcutaneous layers.
 - Grouped herpes simplex virus infections (Figure 1.13), warts, molluscum contagiosum, varicella, and chickenpox.
 - Dermatoanaphylaxis (Figure 1.14).
 - Annular lesions, ring-shaped with central clearing (ringworm) (Figure 1.15), granuloma annulare, erythema migrans, Lyme erythema.

Chapter 1: Approach to the Patient With a Rash

Figure 1.13 Grouped vesicles are characteristic of herpes simplex virus infection.

Figure 1.15 The lesions of herpes zoster appear in a dermatomal distribution.

Significantly updated and revised, this best-selling quick reference guide provides practical and concise guidance on recognizing and treating more than 100 pediatric and adolescent skin conditions. **More than 300 full-color images** aid in accurate visual diagnosis.

With 9 new chapters added, its coverage spans everything from dermatitis and acne to infections, pigmentation disorders, hair disorders, neonatal and infant conditions, drug eruptions, and much more.

Must-have information on each condition is presented in the precise sequence in which you need it in the clinical setting: etiology/epidemiology; signs and symptoms; how to make the diagnosis; treatment; prognosis; referral considerations, and resources for families.

Reaching Teens

Strength-Based, Trauma-Sensitive, Resilience-Building Communication Strategies Rooted in Positive Youth Development, 2nd Edition

Editor: Kenneth R. Ginsburg, MD, MS Ed, FAAP, FSAHM
Associate editor: Zachary Brett Ramirez McClain, MD

Now in its second edition, this groundbreaking multimedia resource integrates a trauma-sensitive model with the core belief that identifying, reinforcing, and building on inherent strengths can facilitate positive youth development.

- ✓ Access 400+ videos.
- ✓ Participate in individual or group learning.
- ✓ Earn CME/CEU credits.

Key features

- A robust toolkit that helps youth-serving professionals apply the key principles found in positive youth development, resilience, and trauma-sensitive care
- A multimedia toolkit that uses **400+ videos**, written chapters, and group learning and discussion processes to reinforce learning
- Twenty-nine new chapters—95 chapters total

New online platform includes

- Full book content plus references
- Expanded version of select chapters
- In-chapter access to videos and group learning and discussion

Tailored learning resources for different key audiences created in conjunction with subject matter experts

- Education
- Health care
- Juvenile justice
- Foster care
- Substance use programs and recovery
- Sports and physical recreation
- Settings that serve youth enduring homelessness, unstable housing, or human trafficking

Earn CME credits/CEUs in medicine, nursing, health education, counseling, or social work.

DOODY'S CORE TITLE

Textbook of Neonatal Resuscitation®, 8th Edition

American Academy of Pediatrics and American Heart Association
 Editor: Gary M. Weiner, MD, FAAP
 Associate editor: Jeanette Zaichkin, RN, MN, NNP-BC

5-Star Review

"An essential book for every person who regularly cares for a neonate who requires resuscitation."

—Doody's Book Reviews™ of 7th Edition

The Neonatal Resuscitation Program (NRP®) will help you learn the cognitive, technical, and teamwork skills that you need to resuscitate and stabilize newborns.

NRP®, 8th Edition, Introduces NRP Essentials and NRP Advanced

The NRP, 8th Edition, introduces a new educational methodology to better meet the needs of health care professionals who manage the newly born baby.

The NRP Steering Committee made the decision to offer 2 course options so that NRP providers can excel in the course material most relevant to their role and personnel resources during newborn resuscitation.

The NRP Essentials participant will be responsible for the material in lessons 1 through 4 only.

1. Foundations of Neonatal Resuscitation
2. Anticipating and Preparing for Resuscitation
3. Initial Steps of Newborn Care
4. Positive-Pressure Ventilation (includes Laryngeal Mask)

The NRP Essentials learner may study additional lessons for knowledge enhancement (lessons 5 through 11 and supplemental lessons 12 through 14) but will not be tested on that material.

The NRP Advanced participant will be responsible for the material in lessons 1 through 4 and lessons 5 through 11:

5. Endotracheal Intubation
6. Chest Compressions
7. Medications
8. Resuscitation and Stabilization of Babies Born Preterm
9. Post-resuscitation Care
10. Special Considerations
11. Ethics and Care at the End of Life

The NRP Advanced learner may study any or all of the supplemental lessons but will not be tested on those lessons.

Supplemental Lessons

12. Improving Resuscitation Team Performance
13. Resuscitation Outside the Delivery Room
14. Bringing Quality Improvement to Your Resuscitation Team

New in the 8th edition!

- **Key Points** at the beginning of each lesson.
- **Quick Response (QR) codes** that enable the reader to view short videos about the topic on their mobile device.
- **Lesson Review Questions** grouped together at the end of each lesson.
- **Quality Improvement Opportunities** and Frequently Asked Questions in each lesson.
- **New sections in Lesson 10** (Special Considerations) about resuscitation of the newborn with a myelomeningocele or an abdominal wall defect.

Neonatal Simulation A Practical Guide

Editors: Larnia Soghier, MD, MEd, CHSE, FAAP,
and Beverley Robin, MD, MHPE, CHSE, FAAP

Includes 225+
full-color images!

Developed by the leading experts in neonatal simulation, this innovative new resource delivers neonatology care providers and educators essential guidance on designing, developing, and implementing simulation-based neonatal education programs.

★★★★★
5-Star Review

"This superb book should be part of every pediatric training program."

—Doody's Book Reviews™

The early chapters cover learning theory, fundamentals of scenario design, and simulation and the NRP®. The later chapters cover specific applications of simulation in neonatology and debriefing techniques.

The book walks the reader through scenario design, simulators and task trainers, moulage, debriefing techniques, virtual simulations, mannequin adaptations needed to conduct specific simulation procedures, and more.

Step-by-step images walk the reader through adapting mannequins to simulate procedures and how to replicate body fluids and conditions commonly encountered in newborns.

With 225+ color images, as well as plenty of helpful boxes and tables throughout, the book will be useful to both novice and expert.

PCEP: Perinatal Continuing Education Program, 4th Edition

Editor in chief, Neonatology, Robert A. Sinkin, MD, MPH, FAAP
Editor in chief, Obstetrics, Christian A. Chisholm, MD, FACOG

Perfect for self-paced learning or instructor-led training

These information-rich volumes provide concise information, step-by-step perinatal skill instruction, and practice-focused exercises.

All titles significantly revised and updated!

BOOK 1 Maternal and Fetal Evaluation and Immediate Newborn Care, 4th Edition

Book 1 features 8 units covering information and skills for obstetric evaluation and neonatal resuscitation (consistent with AAP guidelines) as well as units to provide the necessary information for initially stabilizing a newborn. The neonatal resuscitation unit has been updated to reflect the new NRP[®], 8th Edition, guidelines.

Paperback, September 2021—349 pages

Factoring in Our Impact on Pediatric Health

Journal Impact Factor Annual Report

- 7,124 Impact Factor Score (previous year 5,394)
- 95,966 Total Accumulative Citations (previous year 79,434)
- #1 Most-Cited Journal in Pediatrics #107 out of 20,932 worldwide Journals based on total citations
- #1 Eigenfactor Score (0.09206)

Source: 2021 Clarivate Journal Citation Report (JCR)

Editor:
Lewis R. First, MD, MS, FAAP

Articles featured include:
 - Premature Antibiotic Therapy Duration in Young Infants With Bacteremic Urinary Tract Infections
 - Trends in Psychiatric Emergency Department Visits Among Youth and Young Adults in the US
 - Prednisolone Versus Dexamethasone for Croup: a Randomized Controlled Trial
 - Antibiotic Prescribing During Pediatric Direct-to-Consumer Telemedicine Visits

Pediatrics®

The AAP flagship journal is proud to announce the annual Journal Impact Factor results and that we remain the #1 most-cited Journal in Pediatrics! We continually strive for publishing excellence with the latest AAP Policy and Clinical Practice Guidelines, Original Research, Quality Reports, Ethics Rounds, Diagnostic Dilemmas and Clinical Reasoning, Research Briefs, Family Partnerships, Advocacy Case Studies, and new featured articles on Equity, Diversity, and Inclusion. In addition to popular video abstracts presented by lead authors and new monthly image feature challenges on Facebook at #AAPPedsQ, we're pleased to announce the migration of *Pediatrics* and all AAP journals onto the new **AAP Publications platform** in late fall 2021 so we can deliver even better results to you.

The Working Mom Blueprint

Winning at Parenting Without Losing Yourself

Whitney Casares, MD, MPH, FAAP

As a practicing pediatrician and mother of 2 young daughters, Dr Casares understands balancing family and career firsthand. In *The Working Mom Blueprint*, she combines honest insights about her own challenges with professional expertise about children of working moms—they thrive!—to create a reassuring guide to navigating modern motherhood. Dr Casares offers a practical plan that covers setting priorities, cultivating self-care, finding child care, establishing an equal parenting partnership, delegating whenever appropriate, and more.

The New Baby Blueprint

Caring for You and Your Little One

Whitney Casares, MD, MPH, FAAP

New mothers will find a modern, empathetic guide to the first few days, weeks, and months with a new baby. Dr Casares combines health and safety information with honest insights from her own parenting experiences. A dual approach to baby and self-care supports new moms through the challenges of meeting their own needs while caring for a new baby. Dr Casares' message is especially relatable for fellow working moms.

Building Happier Kids

Stress-busting Tools for Parents

Hansa Bhargava, MD, FAAP

In *Building Happier Kids*, Dr Bhargava helps parents understand the impact of stress and shares concrete steps parents can take to reduce the pressure on their children and teens and increase their health and happiness. Dr Bhargava prescribes taking a step back from today's nonstop pace and focusing on the basics of healthy eating, quality sleep, and unscheduled free time. With extracurricular commitments, homework, and ever-present electronic devices, this can seem easier said than done, but Dr Bhargava offers realistic, balanced advice that will help prioritize health and restore the happiness of childhood.

High Five Discipline

Positive Parenting for Happy, Healthy, Well-Behaved Kids

Candice W. Jones, MD, FAAP

When confronting the challenge of disciplining their children, moms and dads and other child caregivers often default to the ways their own parents disciplined them, sometimes with harmful results. In *High Five Discipline*, mom and practicing pediatrician Dr Jones shows parents a better way. This positive parenting guide helps parents understand child development and the ways discipline shapes not only children's behavior but their overall health and well-being. Dr Jones coaches parents to understand their child's developmental stages and their own motivations to create a family discipline plan that manages misbehavior and encourages positive behavior. Her advice is packed with developmentally appropriate strategies to tame tantrums, stop sibling squabbles, and encourage better behavior, to create a calmer, more harmonious home.

The CALM Baby Method

Solutions for Fussy Days and Sleepless Nights

Patti Ideran, OTR/L, CEIM, and Mark Fishbein, MD, FAAP

Whether their babies are colicky, fussy, or just sometimes cranky, all parents of newborns can benefit from the proven techniques in *The CALM Baby Method*. With decades of expertise as a pediatric occupational therapist and a pediatric gastroenterologist, the coauthors have helped thousands of parents soothe their high-needs infants, improving attachment, sleep, feeding, and overall quality of life for the whole family. Parents will learn possible causes of their baby's crying and ways to help, including information on reading their baby's cues, attachment, infant massage, positioning, and nutrition.

Protecting Your Child's Health

Expert Answers to Urgent Environmental Questions

American Academy of Pediatrics

Editor in chief: Ruth A. Etzel, MD, PhD, FAAP
Associate editor: Sophie J. Balk, MD, FAAP

Parents concerned about the effects of environmental hazards on their children's health will appreciate this accessible Q&A guide. It provides essential information to help protect their children from toxins where they live, learn, and play, including information on food and water safety, air pollution, sun protection, lead, radiation, and pesticides. Broader issues such as climate change are addressed in addition to the day-to-day risks that children may be exposed to.

Heading Home With Your Newborn

From Birth to Reality, 4th Edition

Laura A. Jana, MD, FAAP, and Jennifer Shu, MD, FAAP

Send parents home from the hospital with confidence when you provide this invaluable guide.

This best-selling guide on newborns is now fully revised and updated with the essential information new parents need. Written by pediatricians who are also parents, *Heading Home With Your Newborn* covers everything from feeding and dressing to diapering and bathing and from crying and sleep to travel and activities. It also includes information on

- Breastfeeding tips and techniques
- Pumping and accessing insurance benefits
- Formula options, vitamins, and supplements
- Safe sleep and sleep strategies
- Typical development and concerns to discuss with the pediatrician
- Illnesses and injuries
- Vaccines and well-baby visits
- The impact of social media sharing
- “Baby blues” and postpartum depression, including symptoms and getting help
- And much more

“This book packs the advice of a parenting class, a doctor’s visit, and a best friend into one indispensable package.”

Caring for Your Baby and Young Child

Birth to Age 5, 7th Edition

American Academy of Pediatrics

Editor in chief: Tanya Altmann, MD, FAAP

Associate medical editor: David L. Hill, MD, FAAP

With more than 4.7 million copies in print, our flagship parenting title has shaped the health and well-being of children for more than 25 years!

The revised and updated seventh edition of *Caring for Your Baby and Young Child* reflects current AAP policy statements and guidelines. This comprehensive handbook of child care covers such topics as

- ADHD
- Allergies and asthma
- Autism spectrum disorder
- Breastfeeding
- Car safety seats
- Cough and cold treatment
- CPR instruction
- Early brain development
- Environmental hazards
- Immunizations
- Media and technology exposure
- Newborn screening
- Obesity
- Prenatal and newborn care
- Resilience
- RSV prevention
- Safe sleep and SIDS
- Vitamin and iron supplementation

Also included is a complete health encyclopedia covering injuries, illnesses, congenital diseases, and other disabilities.
