CLINICAL  
RESEARCH

INQUIS Clinical Research is a leading provider of clinical nutrition research services to the global food industry. With renowned senior scientists, a strong foundation in scientific knowledge and expertise grounded in Good Clinical Practice, meticulous clinic and laboratory staff, and ISO 9001 certification, we are an essential partner to the food industry.

At INQUIS Clinical Research, we appreciate how important your clinical trials are. We deliver scientific expertise, effective recruitment, client ownership of intellectual property, and fast turnaround times to ensure we meet your needs.

## CLINICAL RESEARCH SERVICES

INQUIS offers a complete spectrum of clinical research services to help you structure any and all steps of your trial from end to end: protocol development, recruitment, trial execution, biological sample analysis, biostatistics, and manuscript preparation if desired. We can ensure you receive a custom-designed program that covers every aspect of your research needs seamlessly from beginning to end.

### WEIGHT LOSS AND SATIETY

Appetite & Food Intake
