Use with The Zaky HUG

Touch changes everything™

Increase duration, frequency, satisfaction

Boost fathers' participation

- ☑ **The Zaky ZAK** is the only device ergonomically designed to provide kangaroo care as safe as possible, for as long as possible, as uninterrupted as possible, and as frequent as possible by parents (bare chest) and others (clothed).
- ☑ It holds the baby's weight, proper and consistent posture and containment, warmth, comfort.
- ☑ Hold one or multiple babies weighing 1 to 14 lbs. in every hospital unit and at home.
- ☑ Nonpharmacologic intervention and first line treatment for NAS.
- ☑ Ergonomic, sitting/standing transfer, quiet and immediate easy access to the baby for interventions from the top, bottom, or by partially opening the zipper.
- ☑ Evidence for healthy babies, infants with congenital heart disease, and NICU.
- ☑ Properly size the Zaky ZAK covering the baby up to the neck, and close the zipper to use hands and to eliminate unplanned extubations, sliding, falls during Kangaroo Care.
- ☑ Wash/dry 20+ times inside the wash bag provided.
- ☑ Unisex, antiallergenic cotton/elastane, 3 adjustable zippers (every 2 inches).
- ☑ 4 color coded sizes that consistently fit from 3XS to 6XL.
