

## Find Nanomaterial Summaries, Nanotechnology Articles and Patents all in one place!

The Nature Research solution for nanoscience and technology offering the most comprehensive and up-to-date collection of nanomaterial data and literature references.

190+ JOURNALS

95+ PATENT OFFICES

### Nanotechnology Articles

- **Machine-learned index** of nanotechnology articles by AAAS, ACS, Elsevier, RSC, Springer Nature, Wiley and more
- **Daily-updated\*** index of nanotechnology articles
- **Contextual insights** from full text based on search input

### Nanotechnology patents

- **Nanotechnology-related patents only** selected based on nano-related classification
- **Easily accessible patent claim information** directly on the results page
- **Standardised patent summaries** translated into English

### Nanomaterial Summaries

- **Manually curated** nanomaterial summaries covering:

- **Preparation methods** of nanomaterials in step-by-step synthesis schemes
- Easy to retrieve and compare **nanomaterial variants** with data such as medium, support and dimension

## Nano benefits to researchers:

- **Accelerate your research** by accessing all essential nanotechnology information, including Nanomaterial Summaries, Articles and Patents on one platform
- **Improve your findings** by easily retrieving accurate search results with advanced nano-specific filter options
- **Identify new research** opportunities by incorporating patents into your daily literature search workflow with easy to use functionality, including summaries translated into English, bibliographic information and claims

## Nano benefits to your institution:

- **Support your institution's productivity** in the fast growing field of nanotechnology by offering the largest collection of nanomaterial data.
- **Empower your researchers** with access to key nanotechnology information, including nanomaterial summaries, articles and patents in one place.

### One nanoscience and technology solution serving multiple disciplines:

Biology & Biochemistry

Mechanics

Chemistry & Chemical Engineering

Pharmacy & Medicine

Energy & Environmental Science

Photonics & Electronics

Food & Agriculture

Physics

Materials Science & Engineering

Polymer Science & Engineering

## Availability and Access

Springer Nature's bespoke business models offer complete flexibility. Delivered to all types of organizations whatever their size – from small departments to consortia with multiple users across different locations.
