

PennState Health

Penn State Health Department of Physical Medicine and Rehabilitation is seeking a BC/BE Traumatic Brain Injury Physiatrist to join our exceptional team offering the most comprehensive rehabilitation services in central Pennsylvania. This position will provide inpatient and outpatient care at Penn State Health Rehabilitation Hospital, and consults at Penn State Health Milton S. Hershey Medical Center - both located in a scenic and suburban setting of Hershey, PA.

What We're Offering:

- Competitive Salary and Benefits Package
- Relocation Assistance and CME Funds
- Low call (6 weeks per year)
- Ability to teach medical students, residents, and fellows
- Supportive environment for Research Initiatives
- PSU Tuition Discount for employees & dependents

What We're Seeking:

- Must possess a MD, DO, or foreign equivalent;
- Completion of accredited Brain Injury Fellowship
- BC/BE with ABPM&R in PM&R and BIM
- Dynamic team player
- Ability to acquire license in the State of Pennsylvania

Photo was taken before March 2020 when COVID-19 precautionary measures were not in place.

What the Area Offers:

Central PA is rich in history and offers a diverse culture. Our local neighborhoods boast a reasonable cost of living whether you prefer a more suburban setting or thriving city rich in theater, arts, and culture. Nearby mountains host various ski slopes and the Appalachian Trail and rambling rivers are in our backyard, offering many outdoor activities for all seasons. Conveniently located within a short distance to major cities such as Philadelphia, Pittsburgh, NYC, Baltimore, and Washington DC, the area is rich with activity and is waiting for you to explore.

Penn State Health is fundamentally committed to the diversity of our faculty and staff. We believe diversity is unapologetically expressing itself through every person's perspectives and lived experiences. We are an equal opportunity and affirmative action employer. All qualified applicants will receive consideration for employment without regard to age, color, disability, gender identity or expression, marital status, national or ethnic origin, political affiliation, race, religion, sex (including pregnancy), sexual orientation, veteran status, and family medical or genetic information.

PennState Health

Notable features and opportunities:

- TBI-focused inpatient rehab, consults, clinic and procedures
- Constantly growing program with opportunities to make an impact and follow your own ambitions for your career
- Supportive and accommodating faculty
- Great teaching opportunities: 4-person per year PM&R residency program, plus one SCIM Fellowship and one BI fellowship per year. Several opportunities to educate medical students in various capacities
- Both hi- and low-tech adaptive driving clinic and wheelchair clinic
- TBI continuum conferences with active participation from neurologists, neurosurgeons, physiatrists, therapists, nurses and researchers across the care spectrum of stroke to discuss care initiatives at Penn State
- Adaptive sports programs
- Annual Rec Fest where we showcase all of the adaptive recreation activities to patients and caregivers around Pennsylvania.
- TBI support group
- Opportunities to get involved with research projects, or start new ones, with robust research resources through Penn State the College of Medicine
