

# DEWATERING BAG

An Effective Dewatering Solution

AIRE Environmental Dewatering Bags simplify the dewatering process. They require little or no excavation and are easy to install. Dewatering Bags are constructed of permeable geotextile fabric that provides the sediment filtration needed to keep your SWPPP (Storm Water Pollution Prevention Plan) in force and can help save thousands of dollars in fines and cleanup costs.

## BENEFITS:

- No Excavation Required
- Constructed of permeable geotextile that traps dirt as water slowly seeps out.
- Simple way to filter turbid water and release clean water into the environment.

## STANDARD SIZES

(CUSTOM AVAILABLE)

- |              |             |
|--------------|-------------|
| ■ 6' x 6'    | ■ 25' x 80' |
| ■ 10' x 10'  | ■ 30' x 75' |
| ■ 10' x 15'  | ■ 30' x 90' |
| ■ 15' x 15'  | ■ 35' x 75' |
| ■ 15' x 30'  | ■ 35' x 90' |
| ■ 15' x 75'  | ■ 40' x 75' |
| ■ 20' x 100' | ■ 40' x 90' |
| ■ 20' x 85'  |             |
