

BOOST PERFORMANCE

Without Busting the Wallet

ABOUT THIS PRODUCT

Earth Juice® fertility products push the boundaries of what is possible from a small package of nutrients.

The Rainbow Mix™ Pro is a powerful blend of fertility ingredients and 29 different strains of mycorrhizae and beneficial microbes in a powder/granular plant nutrient package. This product provides nutrients for plant growth and beneficial microbes which help with nutrient uptake and overall soil health.

Seablast™ Grow is a highly concentrated fertilizer formulation designed to push plants through their growth stage for better long term permanent establishment. It can be used along with starter fertilizers in new plantings or as a stand-alone fertilizer to push growth of currently established plants.

RAINBOW MIX™ PRO GROW 8-6-3
